Poetry and Power of Judgment Song Ye, 2024-07-25 This book examines Chinese traditional poetry with an emphasis on the sources of pleasure in creating and appreciating classical Chinese poems and the basis for valid aesthetic judgments about poetry The pleasure derived from art plays a crucial role in people s evaluation of its worth This book shows that Chinese classical poetics and Western aesthetics agree on the sources of aesthetic pleasure Both hold despite their obvious differences that aesthetic taste essentially involves cognition The book explores important ideas in traditional Chinese poetry emphasizing that Poetry is founded upon the power of judgement shi This central idea guides other key concepts throughout the history of Chinese poetics revealing the fundamental principles of creating and appreciating poetic art The author presents new views of traditional Chinese poetry and poetics by unifying these long dispersed basic propositions into a new coherent cognitivist framework that also gives due importance to emotion Scholars and students studying Chinese literature poetics philosophy of art and philosophy of mind will find this book interesting

Colors-Term-1 Jyoti Swaroop, Geeta Oberoi, Term book The ebook version does not contain CD **Filipino Popular Tales** Dean S. Fansler, 2016-09-06 The folk tales in this volume which were collected in the Philippines during the years from 1908 to 1914 have not appeared in print before They are given to the public now in the hope that they will be no mean or uninteresting addition to the volumes of Oriental M rchen already in existence The Philippine archipelago from the very nature of its geographical position and its political history cannot but be a significant field to the student of popular stories Lying as it does at the very doors of China and Japan connected as it is ethnically with the Malayan and Indian civilizations Occidentalized as it has been for three centuries and more it stands at the junction of East and West It is therefore from this point of view that these tales have been put into a form convenient for reference Their importance consists in their relationship to the body of world fiction The language in which these stories are presented is the language in

which they were collected and written down English Perhaps no apology is required for not printing the vernacular herewith nevertheless an explanation might be made In the first place the object in recording these tales has been a literary one not a linguistic one In the second place the number of distinctly different languages represented by the originals might be baffling even to the reader interested in linguistics especially as our method of approach has been from the point of view of cycles of stories and not from the point of view of the separate tribes telling them In the third place the form of prose tales among the Filipinos is not stereotyped and there is likely to be no less variation between two Visayan versions of the same story or between a Tagalog and a Visayan than between the native form and the English rendering
