Morehead, M.D.,2021-04-13 Recent surveys have found that the vast majority of the public believes that mental illness is real and treatable And yet fewer than half of people with diagnosable mental illnesses get treatment in any given year and of those who do only half adhere to it What accounts for the disconnect According to Daniel Morehead M D unchecked critiques of psychiatry that it is impossible to define mental illness that the neurobiology of major mental illnesses is unknown that patients are overdiagnosed and overmedicated has led to a public perception that mental health treatment is profoundly flawed In *Science Over Stigma* Dr Morehead argues that it is time for a full throated defense of mental health treatment and
