The 5x questions checklist for an effective hybrid workplace model

01 What do people want?

As mentioned above, a successful hybrid work strategy and hybrid workspace model can only work if it's designed for the people.

When making any significant decisions or investments, it's important to understand the preferences, needs, and expectations of the people who will be using the space. This includes employees, managers, and other stakeholders who will be part of their life.

The way to build a hybrid work model is to first understand what people want, and then design the most common challenges that will be faced.

How do you design a hybrid work model that meets the needs of all stakeholders? How do you design a hybrid work model that meets the needs of all stakeholders? How do you design a hybrid work model that meets the needs of all stakeholders?
