Handbook of Assessment in Mindfulness Research Oleg N. Medvedev, Christian U. Krägeloh, Richard J. Siegert, Nirbhay N. Singh, 2025-08-03 This handbook provides comprehensive coverage of assessment instruments used in mindfulness research. It discusses traditional and modern approaches used to develop psychometric measures and to establish their reliability and validity such as classical test theory, item response theory, and Rasch model, generalizability theory, facet benchmarking, and network analysis. The handbook provides information on conceptual foundations, development, and psychometric properties of assessment instruments used to measure mindfulness in children, adolescents, and adults. In addition, it provides similar information on scales used in specific contexts and for various purposes. It reviews behavioral, cognitive, and psychophysiological assessment measures of mindfulness. The handbook examines a broad range of psychological, physical health, and mental health and related measures that are used in mindfulness research. This reference work enables researchers to choose appropriate measurement tools for a broad range of mindfulness research. Key areas of coverage include: Nature and theoretical foundations of assessment; Origins and definitions of mindfulness; Mindfulness scales for children and adolescents; Mindfulness scales for adults; Mindfulness scales for specific contexts and purposes; Mindfulness and Buddhist-related scales; Behavioral assessments of mindfulness; Cognitive and psychophysiological assessments of mindfulness. The *Handbook of Assessment in Mindfulness Research* is an essential reference for researchers, professors, and graduate students, as well as clinicians, therapists, and other mental health practitioners in clinical psychology and affiliated medical and mental health disciplines, including complementary and alternative medicine, social work, occupational, and rehabilitation therapy.

Mindfulness and Buddhist-Derived Approaches in Mental Health and Addiction Edo Shonin, William Van Gordon, Mark D. Griffiths, 2015-11-13 This book provides a timely synthesis and discussion of recent developments in mindfulness research and practice within mental health and addiction domains. The book also discusses other Buddhist-derived interventions such as loving-kindness meditation and compassion meditation that are gaining momentum in clinical settings. It will be an essential text for researchers and mental health practitioners wishing to keep up to date with developments in mindfulness clinical research, as well as any professionals wishing to equip themselves with the necessary theoretical and practical tools to effectively utilize mindfulness in mental health and addiction settings.
