Block,2021-11-23 This book applies libertarian property rights theory to a vexing controversy abortion This book offers a compromise solution that will not fully please either of the two sides of this debate but is the only possible reconciliation between the two Nor are its benefits limited to the fact that the opposing forces in this debate may be brought together Evictionism also is the only philosophical position compatible with human rights neither of the other two can make this claim There are many other publications and learned articles supporting the pro life position as well as defending the pro life viewpoint This is the only book that offers a perspective on abortion that is radically different than both This book uniquely applies private property rights theories we all agree upon when referred to issues such as real estate crime torts etc to abortion The underlying philosophical contribution of Evictionism this book presents is that these basic legal premises can be utilized in this controversial case as well as practically everywhere else in law Want to solve the abortion controversy Want to demonstrate that both the pro life and the pro choice positions are erroneous Want to read about a position that is a compromise between the pro life and the pro choice positions Then this book provides robust understanding discussions and applications for getting to the truth about this issue [The Quality Yearbook, 2002](#) James W. Nationalism and the Politicization of History in the Former Yugoslavia Gorana Ognjenovic,Jasna Jozelic,2021-03-19 This book is very timely the instrumentalization of history for political goals has become a pressing issue and worrisome feature of many polities to the point of challenging even the most consolidated democracies Focusing on Yugoslavia s fragile successor states the authors explore plurifold analytical levels including local regional transnational European and global perspectives The authors comprehensively demonstrate how politicizing history in the postwar and postcommunist societies of what was once Yugoslavia has prevented both reconciliation and democratization Sabine Rutar Leibniz Institute for East and Southeast European Studies Germany Ognjenovic and Jozelic focus here on the former Yugoslavia before and after its fragmentation to explore and evaluate the various uses of histories by nationalists both those who promoted federal nationalism and those who peddle specific local nationalisms in successor states The book deals

specifically with the Western Balkans but these developments have their parallels in many other parts of the world and the book will be useful well beyond the region on which the study is based Paul Mojzes Professor Emeritus Rosemont College USA The former Yugoslavia has become a battlefield for the Memory Wars in spite of the wealth of judicially established facts and available evidences gathered about the atrocities in the region and various initiatives aimed at dealing with the past and efforts at transitional justice Focusing on three periods of Yugoslav history the Second World War socialist Yugoslavia and the Yugoslav wars of 1991 2001 the contributors show that despite these efforts to deal with the past sustainable peace and reconciliation across ethnic and religious groups remain a distant aim Marijana Toma Center for Cultural Decontamination Serbia This book analyzes how nationalists in the former Yugoslavia have politicized history to further their political agendas retaining and prolonging conflict among different cultural and religious groups and impeding the process of lasting reconciliation It explores how narratives have been mis used drawing on examples from all of the former Yugoslav republics With contributors from a range of disciplinary backgrounds it provides a vital assessment of how nationalists have attempted to re shape public collective memory and relativize facts

can speak of memory as being written upon place and place as being written upon memory In dialogue with theorists such as Jeff Malpas and Ed Casey Donohoe focuses on analysis of monuments and memorials to investigate how such deliberate places of collective memory can be ideological or can open us to the past and different traditions The insights in this book will be of particular value to place theorists and phenomenologists in disciplines such as philosophy geography memory studies public history and environmental studies
