Modern Packaging Industries (2nd Revised Edition) NIIR Board, 2010-02-13 Packaging is a means of ensuring the safe
delivery of a product to the ultimate consumer in a sound condition at the minimal overall cost Packaging not only
differentiates one brand from another but also at times gives a preview of the product being sold Although it is a subject of
recent technological origin the art of packaging is as old as the primitive humans Packaging is the science art and
technology of enclosing or protecting products for distribution storage sale and use also refers to the process of design
evaluation and production of packages and can be described as a coordinated system of preparing goods for transport
warehousing logistics sale and end use Packaging contains protects preserves transports informs and sells In many countries
it is fully integrated into government business institutional industrial and personal use The continual technological growth
systems have undergone significant changes in recent years A lot of packaging process has been streamlined to give a more
scientific and rational approach The role of packaging continues from the coordinated system of preparing goods to the end
use It has become a big tool for launching new specific products in different shapes and sizes The packaging industrial
growth has led to greater specialization and sophistication from the point of view of health in the case of packaged foods and
medicines and environment friendliness of packing material The demands on the packaging industry are challenging given
the increasing environmental awareness among communities The packaging industry is growing at the rate of 22 to 25 per
cent per annum thus is to play a unique role in preserving the wealth or value created by many industries This book
describes the techniques and process behind packaging of different specific products which are used in our day to day life

The specific products include cereal spices edible oils drinking water chocolate and confectionery fruits and vegetables marine products and many more Some of the vital contents of the book are adhesives for packaging industries factors affecting adhesion tin plate containers for foods pharmaceuticals and cosmetics tin plate usage in packaging packaging of cereals and cereal products trends in packaging of spices and spice products packaging of edible oils vanaspati and ghee metal containers for food packaging packaging aspects of sugar and chocolate confectionery packaging for irradiated foods packing of meat meat products in tin containers etc This book is an invaluable resource for all its readers entrepreneurs scientists existing industries technical institution etc in the field of packaging VizAbility ,1996 The New Media Literacy Handbook Dr. Cornelia Brunner,William Tally,1999 A concise and comprehensive guide to the ever growing world of new media and new technology as well as a sourcebook for teachers seeking to harness these resources and bring them into the classroom From CD ROMs to the Internet to graphic design programs the vast array of new media products and information available to the average person can be overwhelming and confusing As media increasingly enter the classroom teachers are expected to help their students develop a set of critical skills that enable them to use and analyze media products for a variety of purposes to understand inform persuade and tell stories But what to use and where to begin Even if teachers have access to these materials they are often at a loss as to how to make them a valuable part of their students learning experiences The New Media Literacy Handbook is an invaluable resource for educators seeking information on and guidance in navigating through the vast new media landscape The book has been designed to help teachers develop their own visual literacy skills become more sophisticated and reflective users of media in the classroom and in general and develop evaluation criteria for media products In addition to their overview and evaluation guide the authors provide information on how new media can be used in several academic disciplines language arts history science and art and specific products and Web sites to explore Clearly written with helpful exercises for teachers included in each chapter The New Media Literacy Handbook is an essential tool for today s educators Handbook of Human-Computer Interaction M.G.
