Constellations of a Contemporary Romanticism Jacques Khalip, Forest Pyle, 2016-07-01 *Constellations of a Contemporary Romanticism* takes its title and point of departure from Walter Benjamin's concept of the historical constellation which puts both contemporary and romanticism in play as period designations and critical paradigms Featuring fascinating and diverse contributions by an international roster of distinguished scholars working in and out of romanticism from deconstruction to new historicism from queer theory to postcolonial studies from visual culture to biopolitics this volume makes good on a central tenet of Benjamin's conception of history These critics grasp the constellation into which our own era has formed with a definite earlier one Each of these essays approaches romanticism as a decisive and unexpired thought experiment that makes demands on and poses questions for our own time What is the un-lived of a contemporary romanticism What has romanticism's singular untimeliness bequeathed to futurity What is romanticism's contemporary redemption value for painting and politics philosophy and film

Constellations of Reading Carlo Salzani, 2009 How to read Walter Benjamin today This book argues that the proper way is through an approach which recognizes and respects his own peculiar theorization of the act of reading and the politics of interpretation that this entails The approach must be figural that is focused on images and driven by the notion of actualization Figural reading in the very sui generis Benjaminian way understands figures as constellations whereby an image of the past juxtaposes them with an image of the present and is thus actualized To apply this method to Benjamin's own work means first to identify some figures The book singles out the Fl neur the Detective the Prostitute and the Ragpicker and then sets them alongside a contemporary account of the same figure the Fl neur in Juan

Goytisolo's *Landscapes after the Battle* 1982 the Detective in Paul Auster's *New York Trilogy* 1987 the Prostitute in Dacia Maraini's *Dialogue between a Prostitute and her Client* 1973 and the Ragpicker in *Mudrooroo's The Mudrooroo Miller Project* 1993 The book thereby on the one hand analyses the politics of reading Benjamin today and on the other sets his work against a variety of contemporary aesthetics and politics of interpretation [Profiles in Contemporary Social Theory](#) Anthony Elliott, Bryan S Turner, 2001-07-23 This comprehensive book provides an indispensable introduction to the most significant figures in contemporary social theory Grounded strongly in the European tradition the profiles include Michel Foucault Jürgen Habermas Roland Barthes Jean Baudrillard Pierre Bourdieu Zygmunt Bauman Martin Heidegger Frederic Jameson Richard Rorty Nancy Chodorow Anthony Giddens Stuart Hall Luce Irigaray and Donna Haraway In guiding students through the key figures in an accessible and authoritative fashion the book provides detailed accounts of the development of the work of major social theorists and charts the relationship between different traditions of social cultural and political thought [The Aesthetics of Nostalgia](#) Renee R. Trilling, 2017-01-06 Heroic poetry was central to the construction of Anglo Saxon values beliefs and community identity and its subject matter is often analyzed as a window into Anglo Saxon life However these poems are works of art as well as vehicles for ideology *Aesthetics of Nostalgia* reads Anglo Saxon historical verse in terms of how its aesthetic form interacted with the culture and politics of the period Examining the distinctive poetic techniques found in vernacular historic poetry Renee R Trilling argues that the literary construction of heroic poetry promoted specific kinds of historical understanding in early medieval England distinct from linear and teleological perceptions of the past *The Aesthetics of Nostalgia* surveys Anglo Saxon literary culture from the age of Bede to the decades following the Norman Conquest in order to explore its cultural impact through both its content and its form

Saavedra, 2009-06 These essays explore the thought of critic and philosopher Theodor Adorno the aesthetics of critic Walter Benjamin and various aspects of modern critical theory Among the topics are the autonomy of art art in an age of mechanical reproduction and emancipation and anti-Semitism H W Wilson Inc

Modernism Between Benjamin and Goethe Matthew Charles, 2019-12-12 Widely regarded as one of the foremost cultural critics of the last century Walter Benjamin's relation to Modernism has largely been understood in the context of his reception of the aesthetic theories of Early German Romanticism and his associated interest in avant garde Surrealism But this Romantic understanding only gives half the picture Running through Benjamin's thought is also a critique of Romanticism developed in conjunction with a positive engagement with the philosophical artistic and historical writings of J W von Goethe In demonstrating the significance of these Goethean elements this book challenges the dominant understanding of Benjamin's philosophy as essentially Romantic and instead proposes that Goethe's Classicism conceived as the counterpoint to Romanticism permits a corrective to the latter's deficiencies Benjamin's Modernist concept of criticism it is argued is constituted in the movement between these polarities of Romanticism and Classicism Conversely placing Goethe's Classicism in relation to Benjamin's practice of literary criticism reveals historical tensions with Romanticism that constitute the untimely indeed it will be argued cinematic Modernism of his work Adopting a transcritical approach this book alternates between Benjamin and Goethe in relation to the experiences of colour language and technology assembling a constellation of philosophical and artistic figures between them including the writings of Kant Nietzsche Cohen Deleuze Koselleck Klages and the work of Gr newald Mar es Klee Turner Hulme Eisenstein Tretyakov and Murnau

The Information Society Robin Mansell, 2009 The information society refers to a constellation of developments arising from the growing use of communication technologies in the acquisition storage and processing of information and the role of information in supporting the creation and exchange of knowledge Research on information societies really began to take off in the 1970s when Daniel Bell wrote about the information age While there were earlier works that focused on the growing importance of information in the economy it was not until the mid 1990s and the spread of the Internet that this field of study experienced a huge expansion across a broad range of disciplines in the social sciences and beyond A critical mass of scholarship has now accumulated establishing the information society and information societies as a terrain of substance and complexity the exploration and understanding of which requires increasingly sophisticated navigation skills As research in and around the area continues to flourish as never before this new title in Routledge's Major Works series Critical Concepts in Sociology meets the need for an authoritative reference work to make sense of a rapidly growing and ever more complex corpus of literature and to provide a map of the area as it has emerged and developed over the last thirty years or so The Information Society is fully indexed and has a comprehensive introduction newly written by the editor which places the material in its historical and intellectual context It is an essential work of reference and is destined to be valued by scholars and students as well as policy makers and practitioners in the field as a vital one stop research resource Publisher's website
