Frank Victor Higgins, 1961 **Writing Together - Let Your Imagination Soar** Madalyn Breeding, Gianna Cabral, Abigail Hawkins, 2018-11-29 In July 2018 a small class formed with the idea to teach children about writing more specifically how to write creatively For this class there was less emphasis on proper writing style spelling grammar etc and more focus on using ones imagination with their writing Though spelling and grammar were addressed they were just not the central point of this class The class consisted of five young ladies all eager to participate but also a bit nervous about trying to put down their thoughts on paper Each class had activities that are intended to allow the writers to look at their world differently and then be able to write about it in a way that can express their thoughts entertain or educate or to spread awareness about something or someone IN school children are usually taught the mechanics of writing punctuation grammar and spelling as well as the shapes of different types of narratives However often time constraints don t allow for children to be taught just what it is to be a writer To know the thrill of the idea that emerges as if from nowhere the hours spent searching for the right word for the job the anxiety and anticipation of having our work read and the gratification of receiving feedback from someone you have affected simply by the way you arranged words on a page or screen That part of writing is something that has to be discovered rather than taught So to offer children that opportunity to learn for themselves the joys of creative writing this was something that could not be passed up The idea was to not only give the children an introduction on how to flex their imaginations and put it down on paper but to also put it all together for this book No matter your age seeing your writing on the printed page is a thrill Perhaps that thrill is greatest for the youngest of writers as they feel acknowledged and proud of their work and the fact that someone has decided it s good enough to share with the rest of the world The talent and

imagination of young people is a joy to see and encourage They have clever fictional stories to tell touching personal stories to share and voices that should be heard As teachers we can give children the tools and skills to become writers but the more challenging step of helping them discover the writer within is that creative leap only they can make

Writing Against, Alongside and Beyond Memory Marilyn Metta, 2010 The thesis will conclude by bringing together reflections on the political social and therapeutic implications of writing personal life narratives the limitations of reflexive research methodologies and knowledge making and the implications of lifewriting research for feminist scholarship research and practice

Cioffi,2005 More than merely a writing text The Imaginative Argument offers writers instruction on how to use their imaginations to improve their prose Cioffi shows writers how they can enliven argument the organizing rubric of all persuasive writing by drawing on emotion soul and creativity the wellsprings of imagination While Cioffi suggests that argument should become a natural habit of mind for writers he goes still further inspiring writers to adopt as their gold standard the imaginative argument the surprising yet strikingly apt insight that organizes disparate

noises into music that makes out of chaos chaos theory Rather than offering a model of writing based on established formulas or templates Cioffi urges writers to envision argument as an active parsing of experience that imaginatively reinvents the world Cioffi s manifesto asserts that successful argument also requires writers to explore their own deep seated feelings to exploit the fuzzy but often profoundly insightful logic of the imagination But expression is not all that matters Cioffi s work anchors itself in the actual Drawing on Louis Kahn s notion that a good architect never has all the answers to a building s problems before its physical construction Cioffi maintains that in argument too answers must be forged along the way as the writer inventively deals with emergent problems and unforeseen complexities Indeed discovery imagination and invention suffuse all stages of the process The Imaginative Argument offers all the intellectual kindling that writers need to ignite this creativity from insights on developing ideas to avoiding bland assertions or logical leaps It cites exemplary nonfiction prose stylists including William James Ruth Benedict and Erving Goffman as well as literary sources to demonstrate the dynamic of persuasive writing Provocative and lively it will prove not only essential reading but also inspiration for all those interested in arguing more imaginatively more successfully
