Wwii Through These Eyes:

Through These Eyes T/Sgt. James Lee Hutchinson, Ed.S.,2005-10-05 This is the story of Eighth Air Force bombing missions leaving England to blast targets in Hitler s Third Reich in 1944 45 Each clear day the skies filled with hundreds of B17 Flying Fortress bombers and their escorts crossing the English Channel toward enemy targets protected by anti aircraft batteries and German fighters waiting to attack the heavy bombers The skies over the target were filled with black flak appearing to be so thick you could walk on it The exploding shells filled the space with flying chunks of iron as bombers started their bomb run on the target We often could hear the flak pelting our plance like a buckshot on a tin roof This flak would often strike a vital part of the plane or wound a member of the crew Our waist gunner was wounded on our tenth mission Some missions we could count hundreds of holes in our plane after we landed safely in England Bombers receiving a direct hit were blown out of the sky and another ten man aircrew was lost Planes severely damaged had to drop out of formation and face enemy fighters alone unless some of our P 51 or P 47 escort fighters protected them Bombers disabled or on fire had no choice but to order the crews to bail out Airmen who survived the parachute jump were captured and placed into German prisoner of war camps POW They were classified as missing in action Forty eight photos some sixty years old are included in this 350 page book to illustrate the story of the author s childhood in the Great Depression through the great air war of World War II A description of each mission from a sixty year old diary is included I think you will enjoy the story of a teenage Radio Gunner s experiences in the Mighty Eighth Air Force World War II Through Polish Eyes M. B. Szonert,2002 Intertwining the fate of a country with the life of one Polish family this book tells the story of a Polish girl who attempted to outwit the Nazis and the Soviets The events are true and based on extensive oral accounts of the participants and documents released only in Polish and never before available in English including original Auschwitz letters and Nazi exhumation documents Through These Portals Wayne C. MacGregor,2002 MacGregor s gripping memoir lends an amazing sense of immediacy to descriptions of the Great Depression and savage face to face small unit infantry action in 1944 45 on the western Pacific front depicting war at its worst and individual soldiers at their best Journal of the Senate of the State of Indiana Indiana. General Assembly. Senate,2007 Journal of the House of Representatives of the State of Indiana at Their ... Session Indiana. General Assembly. House of Representatives,2007 **South Slavic Writers Before World War II** Vasa D. Mihailovich,1995 Covers five literatures Bulgarian Croatian Macedonian Serbian and Slovenian The writers chosen serve indirectly as a history of each of these literatures in all genres The Log ,1943 Writers on World War II Mordecai Richler,1993 **Flak** Edward B. Westermann,2001 Air raid sirens wail searchlight beams flash across the sky and the night is aflame with tracer fire and aerial explosions as Allied bombers and German anti aircraft units duel in the thundering darkness Such cinematic scenes played out with increasing frequency as World War II ground to a close were more than mere stock material for movie melodramas As Edward Westermann reveals they point to a key but largely

unappreciated aspect of the German war effort that has yet to get its full due Long the neglected stepchild in studies of World War II air campaigns German flak or anti aircraft units have been frequently dismissed by American British and German historians and by veterans of the European air war as ineffective weapons that wasted valuable materiel and personnel resources desperately needed elsewhere by the Third Reich Westermann emphatically disagrees with that view and makes a convincing case for the significant contributions made by the entire range of German anti aircraft defenses During the Allied air campaigns against the Third Reich well over a million tons of bombs were dropped upon the German homeland killing nearly 300 000 civilians wounding another 780 000 and destroying more than 3 500 000 industrial and residential structures Not surprisingly that aerial Armageddon has inspired countless studies of both the victorious Allied bombing offensive and the ultimately doomed Luftwaffe defense of its own skies By contrast flak units have virtually been ignored despite the fact that they employed more than a million men and women were responsible for more than half of all Allied aircraft losses forced Allied bombers to fly far above high accuracy altitudes and thus allowed Germany to hold out far longer than it might have otherwise Westermann's definitive study sheds new light on every facet of the development and organization of this vital defense arm including
