X Files Real Science Behind The X Files:

The Real Science Behind the X-Files Anne Simon,2001 Could an alien organism really survive a centuries long trip on a meteor and remain virulent enough to attack a human being How would a scientist know she was peering at a microbe from another planet What s the possibility of a genetically mutated monster actually developing In a gripping exploration of the facts behind the science fiction that has enthralled millions of X philes Anne Simon the respected virologist who comes up with the science for many intriguing episodes discusses telomeres cloning the Hayflick limit nanotechnology endosymbionts lentiviruses and other strange phenomena that have challenged the intellect and threatened the lives and sanity of America s favorite FBI agents With Simon s extraordinary gift for explaining complicated cutting edge science in a light accessible style and her behind the scenes commentary on the development of various plot lines **The Real Science Behind the X Files** will appeal to science buffs and X Files aficionados alike

The Female Investigator in Literature, Film, and Popular Culture Lisa M. Dresner,2006-12-11 In this book the author examines how women detectives are portrayed in film in literature and on TV Chapters examine the portrayal of female investigators in each of these four genres the Gothic novel the lesbian detective novel television and film

We Want to Believe Amy M. Donaldson,2011-04-14 From the first episode to the latest feature film two main symbols provide the driving force for the iconic television series *The X Files* Fox Mulder s I Want to Believe poster and Dana Scully s cross necklace Mulder s poster may feature a flying saucer but the phrase I want to believe refers to more than simply the quest for the truth about aliens The search for extraterrestrial life the truth that is out there is a metaphor for the search for God The desire to believe in something greater than ourselves is part of human nature we want to believe Scully s cross represents this desire to believe as well as the internal struggle between faith and what we can see and prove *The X Files* depicts this struggle by posing questions and exploring possible answers both natural and supernatural Why would God let the innocent suffer Can God forgive even the most heinous criminal What if God is giving us signs to point the way to the truth but we re not paying attention These are some of the questions raised by *The X Files* In the spirit of the show this book uses the symbols and images presented throughout the series to pose such questions and explore some of the answers particularly in the Christian tradition With a focus on key themes of the series faith hope love and truth along the way this book journeys from the desire to believe to the message of the cross

Gilligan Unbound Paul Cantor,2003-08-25 Cantor demonstrates how during the 1960s *Gilligan s Island* and *Star Trek* reflected America s faith in liberal democracy and our willingness to project it universally *Gilligan s Island* Cantor argues is based on the premise that a representative group of Americans could literally be dumped in the middle of nowhere and still prevail under the worst of circumstances *Star Trek* took American optimism even further by trying to make the entire galaxy safe for democracy Despite the famous Prime Directive Captain Kirk and his crew remade planet after planet in the image of an idealized 1960s America

BOOK JACKET **Motherhood and Space** C. Wiedmer,S. Hardy,2016-04-30 This is a collection of essays on the

spatial dimensions of motherhood Engaging both theoretical and empirical perspectives contributors describe the intersection of space and gender across a variety of contexts with both familiar and unexpected territories explored

Monsters, Mutants & Missing Links Anne Simon, 2011-11-30 Anne Simon is a world renowned biologist and expert on plant viruses She has also been scientific advisor to the X Files since the series began In this fascinating book she explores the extraordinary realities that lie behind the strange discoveries made in each episode by agents Mulder and Scully weird and threatening life forms mutations and alien creatures Despite the achievements of modern science and technology she points out it is estimated that less than 1 per cent of our fellow living creatures have yet been identified Unknown plants animals and microbes still inhabit our planet and new and astonishing discoveries are made every year like the giant interconnected fungus *Amillaria Ostoyae* which spans an area of 2.5 miles and is thus the largest organism on earth found recently in the state of Washington Dr Simon goes on to discuss such hot scientific topics as cloning genetic engineering hybrid organisms and genetics cancer and ageing cyrogenics killer viruses and much else and throughout she refers constantly to the X Files episodes relevant to her subject and gives the inside story of how the story line was developed
