

X-MEN RARITIES

X Men Rarities

Alex G. Malloy

X Men Rarities:

X-men Rarities, 1995 Mutants & Mystics Jeffrey J. Kripal, 2011-09-30 In many ways twentieth century America was the land of superheroes and science fiction From Superman and Batman to the Fantastic Four and the X Men these pop culture juggernauts with their powers and abilities far beyond those of mortal men thrilled readers and audiences and simultaneously embodied a host of our dreams and fears about modern life and the onrushing future But that's just scratching the surface says Jeffrey Kripal In *Mutants and Mystics* Kripal offers a brilliantly insightful account of how comic book heroes have helped their creators and fans alike explore and express a wealth of paranormal experiences ignored by mainstream science Delving deeply into the work of major figures in the field from Jack Kirby's cosmic superhero sagas and Philip K Dick's futuristic head trips to Alan Moore's sex magic and Whitley Strieber's communion with visitors Kripal shows how creators turned to science fiction to convey the reality of the inexplicable and the paranormal they experienced in their lives Expanded consciousness found its language in the metaphors of sci fi incredible powers unprecedented mutations time loops and vast intergalactic intelligences and the deeper influences of mythology and religion that these in turn drew from the wildly creative work that followed caught the imaginations of millions Moving deftly from Cold War science and Fredric Wertham's anticomics crusade to gnostic revelation and alien abduction Kripal spins out a hidden history of American culture rich with mythical themes and shot through with an awareness that there are other realities far beyond our everyday understanding A bravura performance beautifully illustrated in full color throughout and brimming over with incredible personal stories *Mutants and Mystics* is that rarest of things a book that is guaranteed to broaden and maybe even blow your mind

Marvel Graphic Novels and Related Publications Robert G. Weiner, 2008-09-18 This work provides an extensive guide for students fans and collectors of Marvel Comics Focusing on Marvel's mainstream comics the author provides a detailed description of each comic along with a bibliographic citation listing the publication's title writers artists publisher ISBN if available and a plot synopsis One appendix provides a comprehensive alphabetical index of Marvel and Marvel related publications to 2005 while two other appendices provide selected lists of Marvel related game books and unpublished Marvel titles
