Breaking Intersubjectivity Vivienne Matthies-Boon, 2023-02-13 Trauma is commonly understood as Post Traumatic Stress Disorder PTSD Yet as this book explains the concept of PTSD is problematic because it is rooted in a solipsist Philosophy of the Subject Within such a philosophical perspective it is not only impossible to account for trauma s causality but the traumatic event is also prioritised over traumatic social and political structures as trauma is depoliticised as an individual internal cognitive object Rooted in Frankfurt School critical theory this book thus urges us to rethink the concept of trauma trauma should not be understood as impaired subjectivity but rather as broken intersubjectivity Hence it not only presents a critique of the notion PTSD but drawing on the philosophies of Jurgen Habermas Nancy Fraser Rahel Jaeggi and Heideggerian trauma theory in particular it argues that trauma entails the violent imposition of traumatic status subordination In traumatic status subordination

intersubjective parity the counterfactual presupposition of being treated as an equal human being is so violently betrayed that the symbolic realm of the lifeworld collapses As the lifeworld collapses one suffers an atomized state of speechless disorientation wherein the potential of creative collective becoming is destroyed In this sense human induced trauma should thus be understood as a political tool par excellence As this monograph indicates traumatic status subordination was a tool which the Egyptian counter revolutionary actors consisting of the Egyptian military and its temporary subsidiary the Muslim Brotherhood used unsparingly as they attempted to put the revolutionary genie back into the bottle Importantly the Egyptian military not only sought to destroy the object of revolutionary politics but rather the underlying existential structures of the possibility of its very existence as such And thus in the violent instrumental pursuit of economic and political power the counter revolution inflicted multileveled status subordination It did so through a consistent tripartite structural mechanism the infliction of grave deadly violence the procedural colonisation and repressive juridification of the public sphere and the acceleration of neoliberal economic rationalism This not only accumulated in Sisi s prisonification of society and his politics of death but rather also threw activists ever deeper into an atomized state of demoralized silence as it destroyed the very potential of revolutionary and transformative becoming
