The Xyy Man Kenneth Royce,1985-04-01 Biological Influences on Criminal Behavior Gail S. Anderson,2006-11-02 In reviewing introductory texts available to criminologists one is left with the impression that biological factors are irrelevant to the formulation of criminal behavior Where biology is mentioned at all it receives infinitesimal coverage This dearth of attention could at one time be blamed on shoddy research and the legitimate fear that evidence

Genes, Brain Function, and Behavior Douglas Wahlsten,2019-03-19 Genes Brain Function and Behavior offers a concise description of the nervous system that processes sensory input and initiates motor movements It reviews how behaviors are defined and measured and how experts decide when a behavior is perturbed and in need of treatment Behavioral disorders that are clearly related to a defect in a specific gene are reviewed and the challenges of understanding complex traits such as intelligence autism and schizophrenia that involve numerous genes and environmental factors are explored New methods of altering genes offer hope for treating or even preventing difficulties that arise in our genes This book explains what genes are what they do in the nervous system and how this impacts both brain function and behavior

diagnosis **Expository Science: Forms and Functions of Popularisation** T. Shinn, Richard P. Whitley, 1985-06-30 The prevailing view of scientific popularization both within academic circles and beyond affirms that its objectives and procedures are unrelated to tasks of cognitive development and that its pertinence is by and large restricted to the lay public Consistent with this view popularization is frequently portrayed as a logical and hence inescapable consequence of a culture dominated by science based products and procedures and by a scientific ideology On another level it is depicted as a quasi political device for channeling the energies of the general public along predetermined paths examples of this are the nineteenth century Industrial Revolution and the U S Soviet space race Alternatively scientific popularization is described as a carefully contrived plan which enables scientists or their spokesmen to allege that scientific learning is equitably shared by scientists and non scientists alike This manoeuvre is intended to weaken the claims of anti scientific protesters that scientists monopolize knowledge as a means of sustaining their social privileges Popularization is also sometimes presented as a psychological crutch This in an era of increasing scientific specialisation permits the researchers involved to believe that by transcending the boundaries of their narrow fields their endeavours assume a degree of general cognitive importance and even extra scientific relevance Regardless of the particular thrust of these different analyses it is important to point out that all are predicated on the tacit presupposition that scientific popularization belongs essentially to the realm of non science or only concerns the periphery of scientific activity **Chromosomal Variation in Man** Digamber S.
