Framework Healthy Recipes:

Fundamentals for Public Health Practice Amanda Holland, Kate Phillips, Michelle Moseley, Lorraine Joomun, 2022-09-23 A comprehensive textbook providing a complete overview of the multifaceted nature of public health practice. It explores all aspects of public health from communities and wider society, child development and early relationships, inequalities in health, safeguarding the rapidly changing nature of society and the significance of culture, equality and diversity. The book takes a life span approach and makes direct links to the UK health and social care context and has been written for an interprofessional audience. It will be essential reading for health and social care students including nurses and midwives, allied health care professionals, social care workers, qualified health and social care practitioners and anyone who plays a role in understanding, promoting and protecting public health. Key features: Comprehensive wide ranging coverage; Addresses the realities of public health in a globalised world; Applied to the UK four nation context but also considers the global dimension of public health practice.

Food as Medicine Andrea K. Boggild, Micaela Cook Karlsen, 2024-10-22 Let food be thy medicine, a mantra famously attributed to Hippocrates, captures the central role of nutrition and dietary patterns in human health. Not only is the food we consume linked to prevention of diseases of dietary deficiency such as scurvy, pellagra and Kwashiorkor, so too is it related to diseases of caloric abundance such as type 2 diabetes, obesity and hypertension. Moreover, patterns of food consumption are increasingly linked to restoration of health and maintenance of disease free states following diagnoses such as cardiovascular disease, stroke and cancer. Finally, our ever expanding knowledge of the human microbiome's role in health and disease continues to implicate patterns of food consumption to microbial diversity and function and their impact on mood, cognitive status and metabolic health. Never has the scientific examination of

Hippocrates famous tenet been more timely and needed Food As Medicine is complementary to the field of lifestyle medicine which promotes health behavior change across six domains including nutrition exercise sleep stress or substance use exposure to prevent treat and potentially reverse lifestyle related chronic disease
