and secondary schools across the UK A lack of confidence independence and resilience is a major barrier to learning for many pupils and dilutes other efforts that schools make to support them The Character Conundrum argues that teachers can help pupils develop these characteristics in any school context and illustrates how they can do so within and through their day to day teaching Written with passion and clarity it will be essential reading for primary and secondary teachers as well as policy makers with an interest in character grit and resilience and any education professionals committed to giving students greater ownership of their learning and setting them up to succeed
