Understanding Addiction Elizabeth Connell Henderson, 2009-09-18

At least one of every four people in America has had some experience with addiction either personally or through a family member Addiction and its consequences cost billions of dollars each year in direct medical costs lost productivity accidents crime and corruption Yet as a disease addiction is still largely misunderstood Starting with the question what is addiction Elizabeth Connell Henderson takes the reader through the many facets of this disorder She examines the effects of addictive substances on the brain and reviews each of the major classes of substances In the development of addiction she looks at the genetic social and psychological factors Henderson shows the effects of addiction on the family and guides the reader on a journey through the course of the illness and the process of recovery Additional chapters deal with the problems associated with dual diagnosis when addiction is accompanied by other psychiatric illnesses Also chapters cover behavioral addictions such as compulsive overeating pathological gambling and sexual addiction Covered are Who becomes addicted and why What are the properties of the major addictive drugs What is the course of addiction How does addiction affect the family What constitutes recovery What are the current trends in research What organizations are available for help and how are they contacted For the addict in recovery and for the family of the afflicted *Understanding Addiction* provides crucial information to demystify this disease and provide clear guidance toward recovery For human resource workers attorneys social workers nurses corrections officers school counselors and teachers the book provides a framework of practical information for aiding

individual sufferers and coping with their unique struggles The British Journal of Inebriety (alcoholism and Drug Addiction) ,1919 Contains papers read at the quarterly meetings of the society and extracts from the discussions following them with other communications dealing with alcohol and alcoholism *Understanding Substance Addictions* Sophia F. Dziegielewski,2005-06 Sophia F Dziegielewski draws on her many years as a teacher and practitioner to put together this accessible well thought out overview on a variety of substance addictions and disorders the people who suffer from them and the tools available to help them Each chapter was written specifically for this book by a unique blend of academics and practitioners Their combined experiences contribute to making this book practical easy to read and thoroughly helpful in diagnosing substance disorders This book may be used in a variety of courses including drug alcohol and substance abuse courses taught in social work and human services departments and substance abuse certificate programs *The International Journal of the Addictions* ,1990 **Addressing Addiction** Commission on California State Government Organization and Economy,2008 **Medical Council** ,1907 **Documents of the Senate of the State of New York** New York (State). Legislature. community and also beyond as physicians tried to achieve symbolic domination In particular I want to consider three large groups of potential causes that were detected by early Soviet physicians socio political such as war or revolution economical like capitalism or foreign trade and other it includes various causes on the macro and micro scale alike that range from regime of prohibition to sexual frustration to the use of drugs za kompaniiu *Addicted to Crime?* John E. Hodge, Mary McMurrin, Clive R. Hollin, 1997 Certain features of criminal behaviours parallel those of addictions This book explores addiction models in their application to the understanding and treatment of some criminal behaviours Psychology in Everyday Life (High School) David G. Myers, C. Nathan DeWall, 2017-01-27 The psychology course is often a student favorite because it is so relevant to our everyday lives And like all Myers and DeWall texts *Psychology in Everyday Life* delivers an enjoyable and entertaining read complete with the latest research and an eye catching design Unlike other Myers DeWall books this is a brief offering that makes no assumptions about a student's background or experiences This book is written with the diversity of your students in mind Pharmaceutical Journal; ,1924 **The American Journal of Surgery** ,1906 **Research Priorities in Addiction** ,1982
