

Refresh Your Mindset on CHALLENGING BEHAVIOR

To refresh your mindset and prepare to support positive behavior in your students, read this mantra and take some time to think about each line.

This is someone's child.

This is a good person.

This student wants to be successful.

This student is communicating with their behavior.

I can figure out what this student needs.

I can set this student up for success.

I can choose to respond with care.

I can welcome this student into this space.

I can forgive past mistakes.

I can start fresh each day.

Understanding Students Behavior:

Teacher and Parent Action Guide Heidi McDonald, 2013-10 Teacher and Parent Action Guide Understanding Student Behavior A Z looks at students behavioral issues and gives several ways of helping students work through their behavioral concerns It is not enough to say that schools need to be a safe place work must be together to provide the resources to help students become well adjusted human beings This book will introduce the different categories students may fall into and how to address each specific circumstance Currently and in the past students threatening staff hurting others and bringing weapons on campus would be dealt with by submitting them to isolation rooms or other tactics but these tools are in place to help the student de escalate and then are given punishments such as cleanup duty on campus or similar consequence These solutions are not effective because the underlying causes of the anger and violence being exhibited are never addressed Schools staffs need to be conscious of how they discipline or enforce rules This leaves the door open for alternatives as school administrators fear the consequences of parents who do not want their child disciplined Heidi McDonald has thirty years as a school teacher and guidance counselor
