Pedro Alexis Tabensky,2006 This collection embodies a debate that explores the tension between judging and understanding It brings together work dealing with the moral metaphysical epistemological and phenomenological issues required for understanding whether or not there is a tension between judging and understanding and what the moral and legal implications may be of accepting or rejecting this tension

DeCoste,Bernard Schwartz,2000-05 Numerous scholars explore the moral aesthetic and political outcomes of the Holocaust from the perspectives of various academic backgrounds including art literature political science education and history **Genocide and the Modern Age** Isidor

Wallimann,Michael N. Dobkowski,2000-03-01 In the preface to this 2000 edition the authors point out that with the advent of the millennium it is important to take stock of the 20th century which has been labelled as the Age of Genocide

Understanding the Holocaust Dan Cohn-Sherbok,2001-01-01 What is the Holocaust Were Hitler and his executioners sadistic psychopaths Were ordinary Germans morally culpable for murdering millions of innocent victims This volume seeks to explore these and other ethical cultural and religious questions within a historical context Beginning with the origin and growth of anti Semitism the book continues with a detailed account of the various stages of Nazi onslaught and concludes with a consideration of the legacy of the Holocaust in the modern world Designed as a work for students in colleges and universities as well as the general reader the volume contains 26 chapters which deal with a particular period This is followed by discussion of the implication of the events of the Holocaust Unlike other books on the subject this study contains both a history of the Holocaust and extensive reflections about social religious and moral issues raised by the emergence of the Third Reich and its impact on subsequent history Contains maps and illustrations related to the growth and development of Nazism and a lengthy bibliography for further study *The Mirage of Dignity on the Highways of Human 'Progress'*

Lukman Harees,2012-01-16 The Modern Man is hypocritically boasting of unprecedented material progress in a world where inter alia millions daily go to bed hungry die or get killed through unwanted wars and preventable causes live in inhumane

conditions vulnerable being exploited with ever widening inequality and might still ruling over right in international relations even in the post UDHR era an indictment on the collective conscience of mankind Besides the flame of materialism has been devouring time tested moral values causing chaos within the basic unit in society the family and relegating Man and his dignity to the level of animals and even manipulating his identity Therefore questions arise Is Moral law fading are political economic systems and institutions like UN failing in realizing the lofty goal of affording due dignity basic rights and social justice humanity deserves Can the bystanders be mere onlookers anymore This book seeks to dispassionately survey the yawning gap between the rhetoric and the ground reality in bringing about dignity and social justice for humanity from bystanders perspective in the light of these questions and underlines the imperative need for moral progress to go hand in hand to make Man assume his due role as the trustee on earth It also exhorts bystanders to close ranks as human dignity champions rights defenders identity protectors against onslaughts from power hungry politicians mighty powers and vested interests This is the need of the times and what our future progeny demands

*Genocide, the World Wars and the Unweaving of Europe* Donald Bloxham,2008 The murder of at least one million Armenian Christians in 1915 16 and of some six million Jews from 1939 45 were the most extreme instances of mass murder in the First and Second World Wars respectively This book examines the development and dynamics of both genocides While bringing out the many differences in the origins course and nature of the crimes the book argues that both need to be placed into the context of the wider violent agendas and demographic schemes of the perpetrator states In the earlier case it is important to consider the Ottoman violence against Assyrian Christians and Greek Orthodox subjects and programs of forced assimilation of non Turkish Muslim groups including many Muslims victimized by other states In the later case it is impossible to understand the development of the final solution of the Jewish question without paying attention to Nazi policy against Slavic groups the disabled and Europe's Romany population Both genocides furthermore need to be examined in the deeper contexts of the multi causal violence resulting from the collapse of the eastern and southeastern European dynastic empires from the late nineteenth century and from the establishment of new types of state in their aftermath Finally the book explains why these two major genocides occupy very different places in our contemporary memorial culture It argues that the memory politics of the Armenian genocide illustrate the very tight limits to what we can expect in the way of meaningful international concern for ongoing genocides Meanwhile the instrumentalization of the memory of the Holocaust can actually

inhibit self criticism on the parts of the western states that increasingly foreground Holocaust memorial days and museums in their civic education     *Historical Abstracts* Eric H. Boehm,1998     *The National Jewish Monthly* ,1975
