Undignified Death:

The Pragmeme of Accommodation: The Case of Interaction around the Event of Death Wahid

Parvaresh, Alessandro Capone, 2017-06-02 This volume brings together a wide array of papers which explore among other things to what extent languages and cultures are variable with respect to the interactions around the event of death Motivated by J L Mey's idea of the pragmeme a situated speech act the volume has both theoretical and practical implications for scholars working in different fields of enquiry As the papers in this volume reveal despite the terminological differences between various disciplines the interactions around the event of death serve to provide solace not only to the dying but also to the family and friends of the deceased thus helping them to accommodate to the new state of affairs

Digital Afterlife and the Spiritual Realm Maggi Savin-Baden, 2021-12-09 Few religious leaders have examined the potential for the positive impact of digital media and digital immortality creation in religious contexts It is evident that there have been recent moves away from traditional funeral services focusing on the transition of the deceased into the future world beyond towards a rise of memorial content within funerals and commemorative events This has heralded shifts in afterlife beliefs by replacing them to all intents and purposes by attitudes to this life Digital Afterlife and the Spiritual Realm explores the ways in which digital media and digital afterlife creation affects social and religious understandings of death and the afterlife Features Understands the impact of digital media on those living and those working with the bereaved Explores the impact of digital memorialisation post death Examines the ways in which digital media may be changing conceptions and theologies of death For many people digital afterlife and the spiritual realm largely remains an area that is both inchoate and confusing This book will begin to unravel some of this bafflement

Life Sentences Zohreh Bayatrizi, 2008-08-23 Death has popularly had the reputation of being the last of life's great mysteries a subject of speculation and as a foreboding event both inevitable and feared In *Life Sentences* Zohreh Bayatrizi examines the many concerted attempts from the last 350 years to strip death of its mystery and to order manage and transform it from an individualized and fatalistic event to a social phenomenon that allows intervention She examines the process that has caused death to be understood in five quasi biblical commandments thou shalt not die violently thou shalt not die prematurely thou shalt not kill thyself and thou shalt not die an undignified death so that thou shalt die an orderly death Beginning with John Graunt's *Natural and Political Observations Made upon the Bills of Mortality* 1662 considered the first book of statistics and philosopher Thomas Hobbes's declaration that society must minimize the greatest evil of unsanctioned violent deaths Bayatrizi traces the pivotal moments that have changed our understanding of death While illuminating the history of our increasingly rationalized understanding of death she also examines some of our most contradictory reactions to controversial topics such as suicide euthanasia suicide bombing collateral damage and how our moral values have been shaped by an understanding of the proper place of a well ordered death in modern society Both historically rigorous and vigorously engaged in contemporary debates *Life Sentences*
