Une Certaine Justice:

, *Une certaine justice* Phyllis Dorothy James,1998 **Une certaine justice** Phyllis Dorothy James,1998 **Ethics and Justice. Éthique et justice** Peter Kemp,Noriko Hashimoto,2017 The main theme of volume 6 of *Eco ethica* is Ethics and Justice which focuses on the idea of justice in a metaphysical social and personal sense Justice is considered as a balance between opposite ambitions in interdependent persons and as equity in legislation but not as blind justice Today it is valuable not only on the national but also on the cosmopolitan level Before it became personal justice the idea of justice was considered metaphysical and social both in European and Chinese culture However in modern times it is often reduced to a moral duty without meta ethical responsibility The last section considers the importance of the philosophy of Paul Ricoeur 1913 2005 for clarifying the idea of justice Series *Eco Ethica* Vol 6 Subject Philosophy Ethics *Une certaine justice* P. ,1921 General Clauses and Standards in European Contract Law Stefan Grundmann, Denis Mazeaud, 2006-01-01 General clauses or standards Generalklauseln clauses generales are legal rules which are not precisely formulated terms and concepts which in fact do not even have a clear core They are often applied in varying degrees in various legal systems to a rather wide range of contract cases when certain issues arise issues such as abuse of rights unfairness good faith fairness of duty or loyalty or honesty duty of care and other such contract terms not lending themselves readily to clear or permanent definition Here for the first time is a systematic discussion of this kind of rule in the evolving and dynamic context of European contract law A collection of twelve insightful essays by leading European law authorities the book is based on a conference organized jointly by the Society of European Contract Law SECOLA and l association Henri Capitant held in the grande salle of the French Supreme Court in Paris in 2005 The subject is approached along three distinct but interconnected avenues comparative contract law in which the different models to be found among Member States particularly the Germanic French and English common law systems are explored with an eye to differences and common ground EC contract law in which the general clause approach has tended to focus on labour law and consumer law and in which the European Court of Justice more and more assumes the final say and the European codification dimension in which a potential instrument on the European level would compete with national laws and develop closely with them The authors demonstrate that a focus on general clauses in contract law embracing as it does a wide range of types of contracts helps enormously with the necessary integration of legal scholarship and economic approaches and of legal science and legal practice in the field Numerous analytic references to relevant cases and EC Directives give a practical impetus to the far reaching but immediately applicable theory presented in this important book As European contract law continues to develop rapidly this seminal contribution is sure to increase in value and usefulness
