Aiming at Heaven, Getting the Earth Marian E. Crowe, 2007-01-01 This book argues that there is still vitality in the English Catholic novel It analyzes the fiction of four contemporary Catholic novelists Alice Thomas Ellis David Lodge Sara Maitland and Piers Paul Read and situates their work both within the tradition of the Catholic novel as it developed in France and England and within the changing post Vatican II Catholic Church

Image and Power Sarah Sceats, Gail Cunningham, 2014-09-11 Image and Power is an important work of literary and cultural criticism This collection of essays focuses on some of the major issues addressed by women's writing in the twentieth century concerning genre subjectivity and social and cultural expectations issues which in the past have been regarded from an essentially male perspective The text introduces women writers whose novels have been widely read and provides an important contribution to the debate about women in literature

Faithful Fictions Thomas M. Woodman, 2022-02-25 Catholic writers have made a rich contribution to British fiction despite their minority status Evelyn Waugh Graham Greene and Muriel Spark are well known examples but there are many other significant novelists whose work has a Catholic aspect This is the first book to survey the whole range of this material and examine whether valid generalizations can be made about it In charting such fiction from its development in the Victorian period through to the work of contemporaries such as David Lodge the author analyses its complex relationships with changes in British society and the international Church There is more than one way of being a Catholic as Woodman shows but he also demonstrates that many of these writers share common themes and a distinctive perspective They often wish in particular to use their religion as a weapon against what they portray as a complacent Protestant or secular society Their consciousness of writing in the midst of such a society gives a special edge to their treatments of the perennial Catholic themes of suffering sin and sex It also has implications for literary form and relates to what has been seen as the extremist mode of Catholic fiction The final question that Woodman puts is whether the changes in the Church since the Second Vatican Council must inevitably lead to the loss of this distinctive Catholic contribution to the novel
