Law Against Unfair Competition Reto Hilty, Frauke Henning-Bodewig, 2007-07-28

Unfair competition law is concerned with fair play in commerce It is generally regarded as necessary together with antitrust law in order to steer competition along an orderly course and thereby to contribute to promoting an efficient market system that serves the interests of all participants Nevertheless the significance of unfair competition law varies from one country to another Whereas in some countries such as Germany it is seen as one of the most effective commercial laws in other countries such as the United Kingdom it leads rather a shadowy existence From the outset this discrepancy laid in the differences in national legal systems Whilst those continental European countries that possessed a written civil law when instances of unfair competition emerged more or less successfully attempted to incorporate them in the existing tort law system protection in the common law countries was restricted to some narrowly defined torts in particular passing off At this

stage one of the few shared convictions was that the protection of honest entrepreneurs was at issue on this basis in 1900 the only regulation at the international level until now was enacted Art 10 of the Paris Convention **The Law of Unfair**

Competition and Trade-marks Harry Dwight Nims,1917 **Unfair Competition Law** Frauke

Henning-Bodewig,2006-01-01 The book delineates with extraordinary clarity and precision the working of unfair competition law throughout the European Union Its four comprehensive chapters encompass basic considerations of definition subject matter enforcement and applicable law international provisions under the Paris convention TRIPS and WIPO model law analysis of relevant EC directives and regulations and ECJ jurisprudence and extensive discussions of the national unfair competition laws of all 25 Member States For each Member State specific topics covered include such considerations as the following sources of law competition law in a nutshell regulation of advertising direct marketing sales promotion risk of confusion disparagement defamation misappropriation imitation impediment of competitors and breach of the law The author also provides a selected bibliography of sources for each country It would be difficult to find a more useful analysis of European Unfair Competition Law than this systematic study It is practical thorough clarifying and readable all at the same time The author untangles the most complex of apparent contradictions with impressive skill Copies of this book will quickly take their places on the working shelves of interested practitioners academics and officials throughout Europe

respect to Unfair Trade Practices Philipp Rosenauer,2011-05-23 Bachelor Thesis from the year 2010 in the subject Business economics Law grade 1 University of Linz course Bachelorseminar language English abstract According to Black's Law dictionary competition is the struggle for commercial advantage The efforts taken of companies to achieve the respective commercial advantages can be especially in a free market economy ample Let's illustrate this fact by the following

examples Suppose that a automobile manufacturer incensed by a car magazine s constant ridicule of its cars launches a rival magazine with a similar name and layout copies the other paper s stories lures away the employees advertisers and subscribers of the other magazine by offering them higher wages and lower advertising and subscribing rates and finally succeeds in running its critical opponent out of business Has the automobile manufacturer engaged in any unfair trade practices for which the owners of the car magazine may seek legal remedy Or has the manufacturer acted in a permissible way to the magazine s attack Furthermore could the magazine be said to have engaged in an unfair trade practice by permanently ridiculing the cars and its manufacturer² How can a merger between two or more businesses which are on the same market level and which manufacture similar products in the same geographic region influence consumers What if two competitors agree in the artificial setting of prices at a certain level contrary to the workings of the free market Do consumers have legal remedies against companies who engage in false advertising or who distribute faulty and dangerous goods The body of law which deals with these subjects is known as competition law which can broadly be divided into Consumer Protection Law and unfair trade practices on the one hand and antitrust law on the other hand The bachelor thesis at hand takes the reader to a journey through competition law with a special insight into Unfair Trade Practices After the study of the bachelor thesis the respective reader should be able to generally orientate him or herself in this highly practice oriented field of law

Towards a European Unfair Competition Law Rogier W. De Vrey,2006 The main aim of this book is to discuss the state of unfair competition law in the European Union In this respect the various efforts that have been made in the past to come to harmonization of this area of law and the reasons that they were only partially successful are reviewed In addition the International and European regulations that refer to unfair competition like e g the Paris Convention the TRIPs and the recent 2004 Unfair Commercial Practices Directive are discussed Also an overview is given of the unfair competition laws in the United Kingdom Germany and the Netherlands with respect to the problem areas of slavish imitation misleading advertising denigrating one s competitor trade secrets and finally misappropriation of valuable trade assets Unfair competition law is traditionally considered part of intellectual property law Not only the relation of unfair competition law to intellectual property laws are therefore part of the discussion but also the areas of consumer protection law since unfair competition law is partly orientated towards consumer protection and competition as an economic concept is the topic of thorough review
