Ungendering Civilization K. Anne Pyburn, 2004-02-24 With nine papers examining a distinct body of archaeological data *Ungendering Civilization* offers a much needed scrutiny of the role of women in the evolution of states Studying societies including Predynastic Egypt Minoan Crete ancient Zimbabwe and the Maya to determine what the facts actually show the contributors critically address traditional views of male and female roles and argue for the possibility that the root historical cause of gender subordination is participation in modern world system rather than innate tendencies to domesticity and child rearing in women and leadership and aggression in men With an interdisciplinary potential students of archaeology cultural studies and gender studies will find this full of useful information *Ungendering Civilization* K. Anne Pyburn, 2004

Sex and Gender in Ancient Egypt Carolyn Graves-Brown, 2008 This volume offers new research on an essential but often controversial aspect of life in Dynastic Egypt Its originality lies in combining research which uses Egyptology s traditional strengths philological and iconographic with reflections on material culture and on the discipline of Egyptology itself The authors are internationally recognized authorities in their fields **Ethnologia Europaea** , 2005 *Shamanism and the Origin of States* Sarah M. Asia China Japan Korea was an outgrowth of the leadership in smaller communities guided by shamans Using a mixture of historical documents mythology archaeological data and ethnographic studies of contemporary shamans she builds a case for shamans being the driving force behind the blossoming of complex societies More interesting shamans in East Asia are generally women who used their access to the spirit world to take leadership roles This work challenges traditional interpretations growth of Asian states which is overlaid with later Confucian notions of gender roles Written at a level accessible for undergraduates this concise work will be fascinating reading for those interested in East Asian archaeology politics and society in gender roles and in shamanism
