Unions In Csiro:

Unions in CSIRO Sally Wilde,1998-01-01 This history of a union that has had an impact on Australian life far greater than its low profile reflects strongly the commitment of members to CSIRO Although this is a history of the union it demonstrates profound links with CSIRO CSIRO is a highly successful organisation and the results of its research and adaptation of technology have contributed enormously to Australia s economic and social well being Several notable histories have been written about CSIRO and the men who led the Organisation Little has been said about the people who worked in CSIRO and CSIR or the unions that represented them This book is intended as a narrative of what has happened since the foundation of the union in CSIR in the 1940s The observations are drawn from discussion with past and present members and from union source documents Union List of Serials ,1977 *Proceedings of the IUFRO (International Union of Forestry Research Organizations)* ,1976 Proceedings of the IUFRO (International Union of Forestry Research Organizations)

Union Mergers in Hard Times Gary N. Chaison,2018-10-18 The past fifteen years have been difficult for the labor movements in industrial countries Gary N Chaison addresses questions implicit in the decline of unions in the United States Canada Great Britain Australia and New Zealand How and why do labor unions merge under pressure What role do mergers play in the unions strategies to deal with membership losses management opposition and hostile governments Are there distinctive national profiles of union mergers Chaison begins by describing the dynamics of the union merger process as large unions combine with each other in amalgamations as small unions are absorbed into larger ones and as local unions affiliate into nationals He discusses the reasons for mergers the barriers to consolidation and the problems of integration which may result The five chapters that follow are arranged in order of increasing intensity in merger activity ranging from the United States where interest in mergers is growing to New Zealand where changing legislation has catalyzed an enormous wave of mergers For each of the five countries considered Chaison characterizes the industrial relations climate and merger record since 1980 explains landmark mergers identifies the antecedents and assesses the chances that a sudden flood of mergers will occur The final chapter compares the national profiles extrapolating the significant differences and common threads Chaison concludes that while mergers can play a critical role in revitalizing labor movements and building the dominant unions of the future they are not necessarily solving the fundamental economic and political problems that plague unions **The National Union Catalogs, 1963-** ,1964 **Union List of Scientific Serials in Canadian Libraries: A-I** National Science Library (Canada),1973 *Union List of Serials in Canada Department of Agriculture*
