### **Spinal Injection**

**Techniques** Theodoros Theodoridis, Juergen Kraemer, 2019-04-04 Safe and effective injection techniques for the treatment of spinal pain. Written by a multidisciplinary team of experts Spinal Injection Techniques presents the most effective methods for injecting pharmaceuticals to address acute and chronic pain originating from the cervical spine to the sacrum. This new second edition has been extensively revised and updated with replacement of many images and addition of an extended chapter with tips and tricks on diagnostic and clinical examination. The authors' emphasis is on techniques that represent viable alternatives to spine surgery and do not rely on diagnostic imaging. The first section of the book provides a general overview of the basic principles, diagnostics and causal as well as symptomatic pain therapy for the spine. The second section created in an atlas format includes chapters on spinal anatomy and pain signaling techniques for injection therapy of the cervical, thoracic and lumbar spine, management of potential complications and side effects and multimodal spine therapy. Illustrated using real life photographs from the authors' practice, each technique related chapter guides the reader step by step and with great confidence through the injection procedures. Highlights: Provides detailed coverage of injection therapy using anatomic landmarks without the use of image guidance. Features minimally invasive spine therapy for inpatient and outpatient settings with concomitant pharmaceutical treatments. Includes essential information on contraindications and patient consent. More than 500 color illustrations and photographs demonstrating the relevant anatomy, patient positioning and accurate needle placement. Conceived as a practical guide and useful compendium Spinal Injection Techniques is invaluable for orthopedists and practitioners in physical medicine and rehabilitation. It is also a handy reference for anesthesiologists, neurologists and rheumatologists with a specific interest in pain therapy for the spine.
