Finally, we have before us a first-rate and wide-ranging volume that reframes television studies afresh, boldly synthesising debates in the humanities, cultural studies, and social sciences. This volume should be in every library and media scholar's bookshelf. Professor Ravi Sundaram, Centre for the Study of Developing Societies. Bringing together a truly international spread of contributors from across the UK, US, South America, Mexico, and Australia, this Handbook charts the field of television studies from issues of ownership and regulation through to reception and consumption. Separate chapters are dedicated to examining the roles of journalists, writers, cinematographers, producers, and manufacturers in the production process, whilst others explore different formats including sport, novella, and soap opera, news, and current affairs, music, and reality TV. The final section analyses the pivotal role played by audiences in the contexts of gender, race, and class and spans a range of topics from effects studies to audience consumption. *The SAGE Handbook of Television Studies* is an essential reference work for all advanced undergraduates, graduate students, and academics across broadcasting, mass communication, and media studies.
