## Story Shaped World:

The Book of the Torah, Second Edition Thomas W. Mann, 2013-10-23 The first five books of the Bible contain many of its most famous stories populated by vivid characters altogether human in their triumphs and failings and an equally complicated deity Many works of Western art and literature appeal to these stories from Michelangelo's painting of Adam and Eve to a novel like William Faulkner's *Go Down Moses* The three great Abrahamic religions Judaism Christianity and Islam are rooted here So is much of Western political theory and constitutional polity for a good half of these books contains legislation torah of various kinds as indicated by the ancient title the book of the Torah Law and narrative together render the character of the ancient covenant community known as Israel as well as the God who rules over that community In this revised and expanded version of his popular book of 1988 Mann engages literary criticism and theology in attending both to the composite nature of the Torah or Pentateuch and to its final canonical shape Mann's study provides a lucid introduction to the heart of the Hebrew Bible suitable for students and general readers but also of interest to biblical scholars

**Evoking Story for Transformation** Lyn Nixon, 2025-08-21 Lyn Nixon takes a fresh approach to the question of whether New Testament authors quote the Old Testament without regard to the original Old Testament meaning that is out of context Her action model uses Speech Act Theory to examine the way authors and readers together contribute to the communication of meaning In her model for meaning to be successfully communicated the reader must experience the transformation intended by the author Lyn Nixon applies her theoretical model to two examples of New Testament quotation where previous scholars have claimed the author quotes the Old Testament in a way that does not correspond to the original meaning Her case studies the use of Ps 115 1 LXX in 2 Cor 4 13 and of Ps 110 1 MT by various New Testament speakers and authors provide new insights into ways that the Old Testament meaning including its transformative intention resonates in the quoting of New Testament texts

*Deuteronomy* Thomas Wingate Mann, 1995-01-01 Deuteronomy is a living document that deals with issues that have relevance for the modern day reader including justice and the vision of the Great Society individual responsibility versus the importance of community and the nature of loyalty to God and to the world By examining these issues readers will draw striking parallels between the world of Israel several millennia ago and today

**Theology on the Way to Emmaus** Nicholas Langrishe Alleym Lash, 2005-01-12 One of Professor Lash's great gifts is that of asking awkward questions and not allowing solutions of theological problems to pass as accepted answers simply because they sound plausible and are passed on without rigorous examination This collection of recent studies some previously unpublished is eloquent testimony to that gift but without ever losing sight of the fact that theology is not only on the way but on the way to the consummation of the experience of Easter Of the book Professor Lash writes The story of the disciples on the way to Emmaus can serve as a parable for the task of Christian interpretation Those disciples like the rest of us had some difficulty in reading their history and the context of recognition the occasion on which things began to make sense was not

some religious event in a sacred space but an act of human hospitality The first two essays treat problems which confront all current theology the tension between the constructive and critical responsibilities of the theologian and the relationship between the theological diversity and the unity of faith There then follows a group of four essays dealing with aspects of the relationship between scripture theology and the problems of Christian living that is to say of hermeneutics or fundamental theology The next pair which complement each other are rather more philosophical or theoretical in character and the final group considers more directly doctrinal questions concerning respectively religious experience and the doctrine of God christology resurrection ecclesiology and Christian hope

**Why Narrative?** Stanley Hauerwas, L. Gregory Jones, 1997-10-28 Narrative Theology is still with us to the delight of some and to the chagrin of others Why Narrative is in reprint because it represents what is still a very important question This diverse collection of essays on narrative theology has proven very useful in university and seminary theology classes It is also of great use as a primer for the educated layperson or church study group Jones and Hauerwas have done an excellent job of selecting representative essays that deal with appeals to narrative in areas such as personal identity and human action biblical hermeneutics epistemology and theological and ethical method

*The Philosophical Frontiers of Christian Theology* Donald MacKenzie MacKinnon, 1982 This book charts some of the frontiers which are of most concern in contemporary discussion regarding the borderlands between theology and philosophy
