## Useful Gifts:

*Good Housekeeping* ,1930      *The Dangers of Gifts from Antiquity to the Digital Age* Alexandra Urakova, Tracey A. Sowerby, Tudor Sala, 2022-09-09 This is the first volume that examines dangerous gift giving across centuries and disciplines Bringing to the fore the subject that features as an aside in gift studies it offers new insights into the ambivalent and troubled history of gift giving Dangerous violent and self destructive gift giving remains an alluring challenge for scholars almost a hundred years after Marcel Mauss s landmark work on the gift Globally the notion of toxic and fateful gifts has haunted mythologies folklores and literatures for millennia This book problematizes what stands behind the notion of the dangerous gift and demonstrates how this operational term may help us to better understand the role and place of gift giving from antiquity to the present through a series of case studies ranging from ancient Zoroastrianism to modern digital dating The book develops a complex historical cross cultural and multi disciplinary approach to gift giving that invites comparisons between various facets of this phenomenon through time and across societies The book will interest a wide range of scholars working in anthropology history literary criticism religious studies and contemporary digital culture It will primarily appeal to university educators and researchers of political culture pre modern religion social relations and the relationship between commerce and gifts

**The Gift Economy** David Cheal, 2015-07-03 Until recently we have known more about gift giving practices in pre industrial societies than about those of industrial western society In this book first published in 1988 David Cheal shows that the process of present giving and receiving is a vital element in contemporary social life relevant to some of the most important theoretical traditions in sociology particularly those of Durkheim and Weber and to the social constructionism of Peter Berger and Thomas Luckmann This volume is the result of a major study of gift rituals carried out by David Cheal and his associates in which general themes are richly illustrated with details from individual case histories gathered during the research It is highly significant that in western society women are more active gift givers than men and while their voices explain how emotions and interests are interrelated within the gift economy the author shows how that in turn is related to current theories about family gender and religion
