**Systems Effectively**, 1989 **Resources in Education**, 1990 **Student Tracking: New Techniques, New Demands** Peter Ewell, 1995-12-18 Longitudinal student tracking systems now serve a multitude of masters Growing accountability demands from states accreditors and the federal government prominently feature such measures as persistence and graduate rates and time to degree At the same time resource shortfalls are driving institutions and state higher education systems to examine their operations more carefully in order to achieve greater coherence and efficiency understanding and

monitoring student flow is a prominent part of this effort In light of these developments student tracking has come of age This volume of New Directions for Institutional Research describes important changes in the requirements for student tracking data bases and examines the expanding technical possibilities provided by statewide administrative data bases and by the availability of greatly enhanced data manipulation and statistical tools for constructing and analyzing longitudinal data files This is the 87th issue of the quarterly journal New Directions for Institutional Research For more information on the series please see the Journals and Periodicals page [A Practitioner's Handbook for Institutional Effectiveness and Student Outcomes Assessment Implementation](#) James Oliver Nichols,1995 *Quality Quest in the Academic Process* John W. Wergin,1994 The question being asked with increasing regularity is Just what do faculty members do Studies of faculty workload have been commissioned in state after state Taken together the studies indicate that college faculty members are working harder than ever but are probably teaching less and are almost certainly having less contact with students particularly undergraduates This volume of New Directions for Institutional Research explores how the public discourse about faculty work might be improved and suggests how colleges and universities might document that work in a fashion that not only more faithfully describes what faculty do but also allows for reports that are more comprehensive and useful This is the 83rd issue of the quarterly journal New Directions for Institutional Research For more information on the series please see the Journals and Periodicals page **Accountability Through Student Tracking** ,1990 Covers scope of longitudinal research at community colleges effectiveness indicators etc [Community, Technical, and Junior College Journal](#) ,1991 **Assessment and Testing** Trudy Haffron Bers,Mary L. Mittler,Mary Mittler,1994 Assessment programs and practices often are proclaimed as central components of the community college enterprise However the myths that have become part of the assessment lore are sometimes more widespread than the realities Assessment and testing while necessary and worthwhile activities can be confusing expensive undertakings that may or may not contribute to the effectiveness of an institution This volume of New Directions for Community Colleges addresses the realpolitik of assessment and testing from a variety of perspectives and examines the possible shortcomings threats and benefits inherent in each The practical considerations strategies recommendations and assessment methodologies presented in this issue serve as a guide to assessment and testing for the novice as well as the seasoned professional [Student Tracking in the Community College](#) Trudy H. Bers,2008-10-13 This volume provides an updated examination of student tracking systems It illustrates how policymakers administrators and institutional researchers are using data to follow student paths through postsecondary education and to measure student success Chapters discuss Using Transcripts in Analyses Directions and Opportunities Retention Tracking Using Institutional Data Using Student Tracking Data from an Institutional Perspective A Statewide Student Unit Record System Florida as a Case Study The National Student Clearinghouse The Largest Current Student Tracking Database Tracking Low Skill Adult

Students Longitudinally Using Research to Guide Policy and Practice Using State Student Unit Record Data to Increase Community College Student Success Beyond Higher Education Other Sources of Data for Tracking Students The focus in student tracking today has shifted away from an examination of prospective students and students in academic difficulty and toward an understanding of student progress through and beyond a single college or university This new emphasis results from a variety of pressures state and public calls for accountability accreditation criteria that place greater attention on learning outcomes recognition that enrollment does not ensure success and an understanding that many students swirl through multiple institutions This is the 143rd volume of the Jossey Bass higher education quarterly report series *New Directions for Community Colleges* Essential to the professional libraries of presidents vice presidents deans and other leaders in today's open door institutions *New Directions for Community Colleges* provides expert guidance in meeting the challenges of their distinctive and expanding educational mission

**Implementing Effective Policies for Remedial and Developmental Education** Jan M. Ignash, 1997 In 1894 forty percent of college freshmen enrolled in pre collegiate programs to prepare for regular college coursework In Fall 1995 twenty nine percent of entering freshmen enrolled in at least one remedial course The debate over the need for and appropriateness of remedial developmental education at the postsecondary level has spanned a century The upcoming 1998 Reauthorization of the Higher Education Act has added fuel to the debate Legislators educators and the general public are asking questions and raising accountability issues Who needs remedial developmental education Why does the need for it appear to be increasing How much does it cost Who should pay for it Are remedial developmental programs effective Who should provide it Legislators and the public are upset over the perception that they are paying twice for the same education once in high school and once again in college Educators are concerned about the potential devaluation of higher education through the provision of large amounts of remedial developmental education And students too are unhappy with the time and expense necessary to develop English and math skills that they should have learned in high school Each chapter of this volume addresses a specific policy question involved in the debate over remedial developmental education and uses national and state data as well as information from case studies of individual institutions to provide insights into effective approaches to remedial developmental education This is the one hundredth issue of the quarterly journal *New Directions for Community Colleges* For more information on the series please see the Journals and Periodicals section
