Worlds Of George:

The Lost Worlds of George Metzger George Metzger,2024-05-21 George Metzger s comics stand out for their captivating combination of high fantasy and science fiction his astonishingly prescient views of climate change and political chicanery and just when you need it the right touch of whimsy and imaginative insight Explore a feudal landscape in roaring rumbling steam powered vehicles as the mysterious Moondog offers hope to a fallen civilization desperate for a new renaissance Swoop and soar the skies in anachronistic airships and personal flyers in Mu the land that never was Hitchhike away from urban strife and get back to nature by homesteading with the hippies It s all here in this anthology of George Metzger s most iconic and idiosyncratic comics creations including two never before seen stories rediscovered after missing for decades
