entertaining in its stories and examples and a guideline towards the development of a plan for continuous improvement This book is filled with stories and examples showing successful and not so successful implementations The stories are used to highlight many of the pitfalls that have arisen and may arise for you and which can be avoided if the reader is aware of them and knows how to watch for them **Driving the Samburu Bride** Diane C. In addition because Arizona does not have an existing state level driver education curriculum the state should adopt a complete driver education curriculum as opposed to a module geared towards adverse driving conditions That said should that effort not be possible it is the recommendation of this report that one of the two adverse conditions related modules Montana or Texas Virginia Both of these modules are well designed and thorough and both would serve Arizona well They are similar in their coverage of adverse driving conditions The choice between the two would come down to Arizona s preference between the NIDB model with which the Montana curriculum is more closely aligned and the ADTSEA model with which the Virginia Texas module is more closely aligned Instructional Materials Film Catalog Pennsylvania.
