Using Mathematics 3:

Heinemann Maths 3: Home Link-Up, 1997 This component of the Heinemann Mathematics series offers a strategy for home support of children's work in school. Whilst consolidating all aspects of the curriculum, the photocopiable homework activities also provide opportunities for children to use and apply their maths in problem-solving activities. The activities provide practice of key skills and techniques, are clearly linked to specific pages in the textbooks and workbooks, allowing for easy integration with class work. They give parents an insight into the approach used in the Heinemann Mathematics series and provide opportunities for children to work individually and at their own pace. *Imagine Math 3* Michele Emmer, 2015-03-04
