**4'33" Time for a Circular Economy** Collectief Circulaire Economie, 2017-12-07 John Cage wrote 4'33" as a modern music work 1953 It is not played by performers using instruments but tacet instruments are not used at all This does not mean it is a silent work It is a creation built up of ambient sounds of that which is present in the moment Silence is the invitation to explore what truth is and experience that truth is an unfolding quality within each of us The essence is that that the supposed division between ourselves and others or our environment is recognised to be an illusion Cage wanted to remove all traces of the ego of the composer in this work The way the performance sounds is not about the composer but about the collective or field in the audience The realisation of a circular economy presupposes a mind shift The challenge is to abstain from an ego economy I materialism and competition and work towards an eco economy we values and sharing This process is supported by personal
