Swarms, Viral Writing, and the Local Carl Whithaus,2025-04-15 Swarms Viral Writing and the Local examines the social and rhetorical dynamics around emerging writing technologies Carl Whithaus argues that these dynamics work across networked publics as patterns of behavior and ways of interacting through and with multimodal texts This rhetorical analysis of the production and reception of born digital rhetoric shows the ongoing and evolving impacts of online public discourse that can lead to bad restaurant reviews or the subversion of democracy It is a networked process that gains significance because of the interplay and tensions between the global and the local As these texts are created distributed received and then recreated and shared again in viral ways different messages resonate across media ecologies Whithaus documents how emerging social dynamics shape and are shaped by digital writing reading and distribution technologies

Guide to Digital Innovation in the Cultural and Creative Industry Sunghan Ryu,Yong Xiang,Weimin Zhang,2024-03-19 The digital age has brought significant changes to the cultural and creative industries making it challenging to keep up with the latest trends The Guide to Digital Innovation in the Cultural and Creative Industry is an informative resource that can help you navigate the revolution It not only provides a comprehensive understanding of how digital transformation affects existing industries but also outlines emerging business opportunities Whether you re an experienced professional or a beginner this book is an essential resource that will equip you with the knowledge and tools you need to succeed in the rapidly evolving landscape of the cultural and creative industries Dive into Democratizing creation Discover how digital tools break down barriers and empower creators of all levels From platforms to possibilities Explore online video streaming ebook publishing virtual museums and more witnessing the rise of innovative business models Cutting edge tech boundless potential Delve into AI blockchain VR AR and other emerging technologies understanding how they reshape content production distribution and consumption Case studies that examine real world scenarios from the digital subscriptions of the New York Times to music consumption in the Spotify era

Making a Metaverse That Matters Wagner James Au,2023-05-16 An up close account from the world s first metaverse embedded reporter In

Making a Metaverse That Matters From Snow Crash Second Life to A Virtual World Worth Fighting For the celebrated author of The Making of Second Life and Game Design Secrets Wagner James Au delivers an engrossing exploration of how nascent metaverse platforms have already captured the imagination of millions Featuring powerful stories and dozens of incisive interviews with insiders including Metaverse creator Neal Stephenson himself the author uses his unique grassroots level perspective as the first reporter embedded in a metaverse platform Readers will learn about How to understand and define the Metaverse and cut through the many myths and misconceptions around it A behind the scenes account of launching Second Life the first metaverse platform to achieve mainstream awareness and what its many controversies teach us Where current platforms Meta Roblox Fortnite VRChat and Lamina1 Neal Stephenson s own metaverse startup fit in the ecosystem How to address the many dangers inherent in the Metaverse before it becomes central to the Internet Perfect for XR industry members and indie creatives Making a Metaverse That Matters is also for tech professionals virtual world communities and anyone interested in the future of culture and commerce

[Infrastructures of Reality: Metaverse Stories, Spaces, Bodies](#) Chris Hesselbein, Paolo Bory, 2025-08-09 This open access book focuses on two dimensions of the development of the metaverse that are crucial to reality namely spatiality and embodiment Metaversal technologies are thought to fundamentally affect both our spaces and bodies which are two central aspects of the constitution of social reality Both spatiality and embodiment are core elements of world making that are being pulled into the ambit of metaversal projects On the one hand metaversal technologies are profoundly spatial in the sense that they render space in virtual form or overlay digital layers onto pre existing physical spaces On the other hand metaversal technologies are directly geared towards the body in that they not only seek to extend or expand our embodied senses and emplace our bodies in virtual spaces but they also seek to capture their behaviours and actions on a far more granular level This can create new opportunities in terms of work social interaction and leisure but can also open our bodies up to new tech driven interventions and control Whether in the form of VR or AR such technologies not only reproduce space but also rely on making spaces more legible and open to automated interventions Taken together the metaversification of spaces and bodies gives rise to crucial questions about the goals and implications of metaversal developments by large technology companies and about the relationship between the developments of the metaverse and AI systems Drawing on our combined background and expertise in Science and Technology Studies and the History of Media and Communication we critically analyse the development of metaversal technologies and platforms by discussing a broad set of developments and examples from a wide range of technology and gaming companies Written in clear concise and accessible language and combining and applying novel theoretical frameworks and concepts to a currently emergent phenomenon this book will find a large audience not only within academic and professional circles but also in popular culture
