Eruptions and Explosions Judy Dodge Cummings, 2018-02-01 The energy released when volcanoes erupt engines combust or bombs explode both thrills and fascinates people But this power also kills Eruptions and Explosions Real Tales of Violent Outbursts recounts the history of five blowups that continued to rattle the world long after the smoke had cleared and embers cooled For example in 1815 a mountain in Indonesia called Tambora erupted This volcano unleashed a monstrous cloud of ash and gas into the upper atmosphere For three years the cloud played with the global environment causing never ending winters and famine that killed thousands Some of the world's most devastating explosions cannot be blamed on nature but on human failings In 1865 the steamship Sultana exploded while transporting thousands of federal soldiers just freed from Confederate prisoner of war camps The greatest maritime disaster in United States history was caused as much by greed as a faulty boiler A discussion about explosions wouldn't be complete without mention of nuclear bombs A desire to end the bloodshed of World War II led the United States to drop an atomic bomb on Hiroshima Japan in 1945 The bomb hastened the end of war but also killed hundreds of thousands of Japanese civilians and launched the nuclear age This nuclear age brought a catastrophic explosion at a power plant in the former USSR in 1986 When a reactor blew at a facility in Chernobyl radioactive fallout spread throughout Europe creating a contamination zone unfit for human life for centuries Powerful forces lie within the Earth and people who try to extract that power pay a high price In 2010 a series of errors led the Macondo oil well to rupture For three months millions of barrels of oil gushed into the Gulf of Mexico destroying plant and animal life and devastating the economy of the region This is the eighth book in a series called Mystery Mayhem which features true tales that whet kids' appetites for history by engaging them in genres with proven track records mystery and adventure History is made of near misses unexplained disappearances unsolved mysteries and bizarre events that are almost too weird to be true almost The Mystery and Mayhem series delves into these tidbits of history to provide kids with a jumping off point into a lifelong habit of appreciating history The five true tales told within Eruptions and Explosions are paired with maps photographs and timelines that lend authenticity and narrative texture to the stories A glossary and resources page provide the opportunity to practice using essential academic tools These nonfiction narratives use clear concise language with compelling plots that both avid and reluctant readers will be drawn to

Tomb Raiders Judy Dodge Cummings, 2018-02-01 The dead do not always rest easy Armed with shovels and crowbars thieves throughout history have unearthed graves for greed hunger and knowledge Tomb Raiders Real Tales of Grave Robberies recounts little known stories of body snatchers and crooks of the crypt For example when colonists in Jamestown Virginia dug up the dead in 1609 they were after food During this Starving Time settlers ate horses dogs cats and rats When that food ran out people resorted to cannibalism to survive Another reason to rob graves Science To learn human

anatomy medical students in New York City in 1788 dissected corpses snatched from nearby graveyards And then there was President Abraham Lincoln who was entombed in a vault in Springfield Illinois In 1876 a gang of counterfeiters schemed to steal Lincoln s corpse and hold it for ransom Another good place to do some grave robbing was the Valley of the Kings in 1881 Thousands of years earlier priests had hidden the monarchs here to protect them from grave robbers of ancient times A little closer to our own time poverty again lured tomb robbers to the dirt hill outside Sip n Peru Poor sugarcane farmers had been digging holes in this mud brick pyramid for decades occasionally finding a piece of cloth or pottery shard But one night in 1987 a tunnel collapsed on a grave robber burying him in treasure In these five tales of historic grave robberies readers will encounter adventure intrigue and suspense with a grain of the grisly This is the seventh book in a series called Mystery Mayhem which features true tales that whet kids appetites for history by engaging them in genres with proven track records mystery and adventure History is made of near misses unexplained disappearances unsolved mysteries and bizarre events that are almost too weird to be true almost The Mystery and Mayhem series delves into these tidbits of history to provide kids with a jumping off point into a lifelong habit of appreciating history The five true tales told within Tomb Raiders are paired with maps photographs and timelines that lend authenticity and narrative texture to the stories A glossary and resources page provide the opportunity to practice using essential academic tools These nonfiction narratives use clear concise language with compelling plots that both avid and reluctant readers will be drawn to True Murder Stories Nischal N. Unsolved Crimes Eslam Abd Elwahed,2025-06-14

In the dead of night when the world holds its breath and shadows stretch like claws across empty streets the truth hides in plain sight buried beneath layers of fear deceit and silence a girl vanishes from a crowded carnival without a single scream heard leaving only the faint scent of perfume drifting in the humid summer air while in a rain soaked alley on the other side of the city a man lies crumpled against the bricks his lifeless eyes reflecting the flicker of a lone streetlamp the killer's footsteps already swallowed by the darkness decades pass and the case files grow brittle with age detectives faces change theories rise and fall yet the questions remain like ghosts that refuse to rest who stood in the shadows that night who knew the truth but chose to lock it away and what threads connect the missing girl the murdered man and the whispers that still coil through the city's veins like smoke in a quiet farmhouse miles away a family sits at dinner unaware that the person who knocked on their door years ago with a friendly smile and borrowed sugar may have been the same person who slipped into a stranger's bedroom to end a life a predator masked in kindness in the depths of police archives dusty photographs stare back faces frozen in time streets now changed beyond recognition evidence misfiled or lost fingerprints smudged into nothingness and somewhere in the back of a darkened bar an old man nursing a drink remembers details he has never told details that could crack open the whole truth if only he could be convinced to speak but the city has learned to live with its ghosts to accept that some doors must remain closed that justice is not always a promise kept and that the past when disturbed can scream louder than the present drawing blood all over again for in these unsolved crimes time is not a healer it is the perfect accomplice

Epidemics and Pandemics Judy Dodge Cummings,2018-02-01 Feel a tickle in your throat Do you still have that headache Could you be falling victim to a deadly virus From history's earliest days bacteria and viruses have stalked humans Stowing on wagons ships and airplanes these diseases traversed the globe infecting people in city streets and isolated hamlets *Epidemics and Pandemics Real Tales of Deadly Diseases* tells the tale of five of history's most critical contagions In 1347 infected fleas hitched a ride from the steppes of Mongolia to the streets of Medieval Europe bringing with them the Black Death Five years later one third of Europe's population was dead When Hern n Cort s arrived in Mexico in 1518 he carried a secret weapon the smallpox virus

helped Cortés defeat the mighty Aztec Empire and paved the way for European conquest of the New World as the disease destroyed the Native American population A few years after the United States won independence from Great Britain the capital city of Philadelphia faced an ordeal that threatened the nation's survival an epidemic of Yellow Fever After the First World War the Spanish Flu of 1918 killed 50 million people around the world in just months Later in that century in the 1980s a mysterious virus struck down gay men in the United States AIDS quickly became a pandemic infecting people from all walks of life These five tales reveal the revolutionary power of disease to change history In each story readers learn about tragedy caused by ignorance and missed opportunity but they will also discover heroic caregivers civic leaders and scientists determined to save their world This is the eighth book in a series called Mystery Mayhem which features true tales that whet kids' appetites for history by engaging them in genres with proven track records mystery and adventure History is made of near misses unexplained disappearances unsolved mysteries and bizarre events that are almost too weird to be true almost The Mystery and Mayhem series delves into these tidbits of history to provide kids with a jumping off point into a lifelong habit of appreciating history The five true tales told within Epidemics and Pandemics are paired with maps photographs and timelines that lend authenticity and narrative texture to the stories A glossary and resources page provide the opportunity to practice using essential academic tools These nonfiction narratives use clear concise language with compelling plots that both avid and reluctant readers will be drawn to *Twentieth Century Crime & Mystery Writers* NA NA,2015-12-25

Index to Crime and Mystery Anthologies William Contento, Martin Harry Greenberg, 1990 *Earth, Wind, Fire, and Rain* Judy Dodge Cummings, 2018-02-01 We might think humans have control over our environment but Mother Nature has proven us wrong again and again *Earth Wind Fire and Rain Real Tales of Temperamental Elements* tells the story of five of America's deadliest natural disasters that were made worse by human error ignorance and greed For example in the fall of 1871 loggers and farmers chopped trees and burned brush in the vast forest around Peshtigo Wisconsin Fire was a tool they believed they could control But on October 8 1 million acres burned in the deadliest fire in American history Later that century meteorologists mistakenly predicted clearing skies for New York City on March 10 1888 Then two devilish storm fronts collided in what was called the Great White Hurricane The blizzard brought New Yorkers to their knees and unprepared city leaders were powerless to help Powerless too were the residents of Johnstown Pennsylvania on May 31 1889 A private club of wealthy businessmen owned a dam upriver from Johnstown The club modified the dam to improve recreation on their private lake but these changes weakened the structure When heavy rains fell the dam burst flooding Johnstown with 20 million tons of water Residents of San Francisco had no warning when a massive earthquake struck on April 18 1906 It toppled buildings ruptured gas mines and ignited fires Years of political corruption had underfunded the fire department leaving it without the equipment or training to quench the inferno and San Francisco burned In the 1920s farmers transformed the dry windy southern Plains by digging up the buffalo grass and planting millions of acres of wheat

But nature fought back by turning this breadbasket into a Dust Bowl On April 14 1935 Black Sunday a 200 mile cloud of dirt buried fields livestock and people Peoples choices did not cause these disasters but they did give the forces of nature an extra nudge However tragedy sparked reforms in weather forecasting soil and forest management and emergency preparation But remember no one can control nature So be prepared to get out of the way when disaster strikes This is the tenth book in a series called Mystery Mayhem which features true tales that whet kids appetites for history by engaging them in genres with proven track records mystery and adventure History is made of near misses unexplained disappearances unsolved mysteries and bizarre events that are almost too weird to be true almost The Mystery and Mayhem series delves into these tidbits of history to provide kids with a jumping off point into a lifelong habit of appreciating history The five true tales told within Earth Wind Fire and Rain are paired with maps photographs and timelines that lend authenticity and narrative texture to the stories A glossary and resources page provide the opportunity to practice using essential academic tools These nonfiction narratives use clear concise language with compelling plots that both avid and reluctant readers will be drawn to

Cold Cases True Crime Brody Clayton,2016-02-17 10 True Crime Stories Of Monsters And Serial Killers Chilling Cold Cases True Crime Accounts The world is full of mysteries Despite the fact that people are living in a high tech world with many advances in science and technology there are still many unsolved and unexplained crimes that occur over the centuries It s quite sad and truly horrible to know that there are people who have the stomach to commit these crimes What is more frustrating is the fact that some of these crimes don t appear to have any motive and are committed just for the fun of it Others are killed simply because they are at the wrong place at the wrong time People become aware of the many gruesome crimes that occur due to being publicized in the media Unfortunately there are still many of these crimes that are left unsolved and however sad it may be some of those crimes may remain as cold cases forever People would like to think that these killers will eventually be caught and brought to justice But that is not always the case Some of these murderers elude justice for years even for decades and in some cases they are never caught and simply take that secret to their graves The mind of a killer is often hard to understand and even harder to get inside of
