## **Truly Human Truly Divine:**

**A History of Christian Theology** William Carl Placher, 1983-01-01 This intellectual history a story of people and their ideas is a delight to read I predict it will be widely used not only in colleges and seminaries but also in lay institutes and study groups John D Godsey in *The Christian Century* [Christian Philosophical Theology](#) Stephen T. Davis, 2006-03-16 Christian Philosophical Theology constitutes a Christian philosopher's look at various crucial topics in Christian theology including belief in God the nature of God the Trinity christology the resurrection of Jesus the general resurrection redemption and theological method The book is tightly argued and amounts to a coherent explanation of and case for the Christian world view Although written from a broadly Reformed Protestant perspective and although the author does not avoid controversial topics the aim is to present a merely Christian world view to adapt slightly C S Lewis's famous term That is Stephen T Davis attempts to write as much as possible from the perspective of the broad centre of Christian understanding

*A Kryptic Model of the Incarnation* Andrew Ter Ern Loke, 2016-03-03 The Incarnation traditionally understood as the metaphysical union between true divinity and true humanity in the one person of Jesus Christ is one of the central doctrines for Christians over the centuries Nevertheless many scholars have objected that the Scriptural account of the Incarnation is incoherent Being divine seems to entail being omniscient omnipotent and omnipresent but the New Testament portrays Jesus as having human properties such as being apparently limited in knowledge power and presence It seems logically impossible that any single individual could possess such mutually exclusive sets of properties and this leads to scepticism concerning the occurrence of the Incarnation in history A Kryptic Model of the Incarnation aims to provide a critical reflection of various attempts to answer these challenges and to offer a compelling response integrating aspects from analytic philosophy of religion systematic theology and historical critical studies Loke develops a new Kryptic model of the Incarnation drawing from the Greek word Kryptis meaning hiding and proposing that in a certain sense Christ's supernatural properties were concealed during the Incarnation [Exploring Kenotic Christology](#) C. Stephen Evans, 2006 This collection of essays by a team of Christian philosophers theologians and biblical scholars explores the viability of a kenotic account of the incarnation Such an account is inspired by Paul's lyrical claims in Philippians 2:6-11 that Christ Jesus though God in nature emptied himself or made himself nothing by becoming human The biblical support for such a view can be found throughout the four gospels and the book of Hebrews as well as in other places A kenotic account takes seriously the possibility that Christ in becoming incarnate temporarily divested himself of such properties as omnipotence omniscience and omnipresence Several of the contributors argue that this view is fully orthodox and that it has great strengths in giving us a picture of a God who is willing to become completely vulnerable for the sake of human beings and one that is completely consistent with the very human portrait of Jesus in the New Testament The proponents of kenotic Christology argue that the philosophical accounts of God's nature that have led to rejection of this theory ought themselves to be subjected to criticism in light of the biblical data

Some essays test the theory by raising critical questions and arguing that traditional accounts of the incarnation can achieve the goals of kenotic theories as well as kenotic theories can. The book also explores the implications of a kenotic view of the incarnation for philosophical theology in general and the doctrine of the Trinity in particular and it concludes with essays that examine the validity of the ideal of kenosis for women and a challenge to traditional Christology to take a kenotic theory seriously. Book jacket *Encountering Jesus* Stephen T. Davis, 1988-01-01 *Encountering Jesus* showcases a lively and provocative dialogue among five theologians and philosophers of religion that offers insight into the problems of Christology.

Christian Theology and Religious Pluralism David S Nah, 2013-01-31 The question of religious pluralism is the most significant yet thorniest of issues in theology today and John Hick 1922 2012 has long been recognized as its most important scholar. However while much has been written analyzing the philosophical basis of Hick's pluralism very little attention has been devoted to the theological foundations of his argument. Filling this gap this book examines Hick's theological attempts to systematically deconstruct the church's traditional incarnational Christology. Special attention is given to evaluating Hick's foundational theses that Jesus himself did not teach what was to become the orthodox Christian understanding of him and that the dogma of Jesus two natures has proved to be incapable of being explicated in any satisfactory way. By elucidating the ways in which Hick's arguments fail David Nah demonstrates that Hick was unwarranted in breaking away from the church's incarnational Christology that has been at the core of Christianity for almost two thousand years. **Hearing John's Voice**

M. Eugene Boring, 2019-11-05 This book is written in the conviction that the church is called into being and nourished by the Word of God that comes through Scripture. But how can Scripture offer any specific guidance for hearers' lives today? What are modern readers to make of the dragons and slaughtered lambs in the book of Revelation? What are we to make of a man who turns water into wine while comparing himself to bread? Can people today know what the Bible says and means? The world of the Bible is strange and distant not only in time and space but also in language, culture, and in its basic assumptions about reality. The first task in both pulpit and pew is not to be in too great a hurry to overcome this distance but to acknowledge it and respect it. Communication across the gap is the task of the church's preachers and teachers. Drawing on his years of teaching and study Gene Boring offers a way of opening the ears of those who take the message of the Bible seriously: a message from a world different from our own. Beginning with Revelation Gene provides a historically informed and pastorally sensitive reading of the various Johannine voices in the New Testament for contemporary preachers and teachers. *The Hibbert Journal* Lawrence Pearsall Jacks, George Dawes Hicks, 1906 *The Hibbert Journal*, 1923 A quarterly review of religion, theology, and philosophy. **Theological quarterly**, 1900 The Presbyterian Review Charles Augustus Briggs, Archibald Alexander Hodge, Francis Landey Patton, Benjamin Breckinridge Warfield, 1888 Includes section "Reviews of recent theological literature."
