**Chernobyl, the Forbidden Truth** Alla Yaroshinska, 1995 In this impassioned shocking and deeply personal story Alla Yaroshinskaya then a journalist from Zhitomir Ukraine near the Chernobyl power station describes the 1986 Chernobyl disaster and the bureaucratic and scientific corruption surrounding it Despite the government's official silence news and panic spread throughout the USSR and Europe after the horrific accident Like others Yaroshinskaya initially fled with her family in hopes of escaping the danger from radioactive fallout that exceeded that of Hiroshima by three hundred times When she returned home she discovered that people in highly contaminated areas were being resettled in ones barely less contaminated that their serious health problems were officially denied and that people had to eat locally grown contaminated food Her newspaper refused to publish her stories and instead commissioned another journalist to write more reassuring accounts Finally *Isvestia* published her articles Despite official pressure Yaroshinskaya was nominated overwhelmingly to the new parliament in 1989 This position gained her access to classified documents known as the Kremlin's Forty Secret Protocols Undaunted by threats she revealed an official cover up including lies about permissible higher radio active levels Her courageous campaign won her the Right Livelihood Award in 1992

**JPRS Report** ,1991 Projecting Russia in a Mediatized World Stephen Hutchings,2022-01-31 This book presents a new perspective on how Russia projects itself to the world Distancing itself from familiar agency driven International Relations accounts that focus on what the Kremlin is up to and why it argues for the need to pay attention to deeper trans state processes over which the Kremlin exerts much less control Especially important in this context is mediatization defined as the process by which contemporary social and political practices adopt a media

form and follow media driven logics In particular the book emphasizes the logic of the feedback loop or recursion showing how it drives multiple Russian performances of national belonging and nation projection in the digital era It applies this theory to recent issues events and scandals that have played out in international arenas ranging from television through theatre film and performance art to warfare The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

**Chernobyl** Serhii Plokhy, 2018-05-15 Winner of the Baillie Gifford Prize 2018 An insightful and important book that often reads like a good thriller and that exposes the danger of mixing powerful technology with irresponsible politics Yuval Noah Harari author of *Sapiens* As moving as it is painstakingly researched a cracking read Viv Groskop Observer The gripping story of the Chernobyl nuclear disaster from an acclaimed historian and writer On the morning of 26 April 1986 Europe witnessed the worst nuclear disaster in history the explosion of a reactor at the Chernobyl nuclear power plant in Soviet Ukraine The outburst put the world on the brink of nuclear annihilation In the end less than five percent of the reactor's fuel escaped but that was enough to contaminate over half of Europe with radioactive fallout In *Chernobyl* Serhii Plokhy recreates these events in all of their drama telling the stories of the firefighters scientists engineers workers soldiers and policemen who found themselves caught in a nuclear Armageddon and succeeded in doing the seemingly impossible extinguishing the nuclear inferno and putting the reactor to sleep While it is clear that the immediate cause of the accident was a turbine test gone wrong Plokhy shows how the deeper roots of Chernobyl lay in the nature of the Soviet political system and the flaws of its nuclear industry A little more than five years later the Soviet Union would fall apart destroyed from within by its unsustainable communist ideology and the dysfunctional managerial and economic systems laid bare in the wake of the disaster A poignant fast paced account of the drama of heroes perpetrators and victims *Chernobyl* is the definitive history of the world's worst nuclear disaster

**Contested Interpretations of the Past in Polish, Russian, and Ukrainian Film**, 2016-01-19 Questions of collective identity and nationhood dominate the memory debate in both the high and popular cultures of postsocialist Russia

Poland and Ukraine Often the Soviet and Russian identity are reconstructed as identical others remember the Soviet regime as an anonymous supranational Empire in which both Russian and non Russian national cultures were destroyed At the heart of this empire talk is a series of questions pivoting on the opposition between constructed ethnic and imperial identities Did ethnic Russians constitute the core group who implemented the Soviet Terror e g the mass murders of the Poles in Katyn and the Ukrainians in the Holodomor Or were Russians themselves victims of a faceless totalitarianism The papers in this volume explore the divergent and conflicting ways in which the Soviet regime is remembered and re imagined in contemporary Russian Polish and Ukrainian cinema and media
