Truth And Objectivity In Social Ethics:

Truth and Objectivity in Social Ethics Cheryl Hughes,2003 Truth and Social Science Ross Abbinnett,1998-01-29
This exciting and accessible guide to the discussions of truth in the social sciences can also be read as an account of the collapse of modernity and the rise of new forms of thought which treat difference and ambivalence as positive values Ross Abbinnett traces the debate on truth from the objectifying powers of Kant through more than 200 years of critique and reformulation to the unravelling of truth by Lyotard Foucault and Derrida **The Social Psychology of Morality** Neil J. MacKinnon,2025-10-07 This incisive book defines and unpacks the concept of morality Neil J MacKinnon summarizes compares and evaluates theories of morality from both psychological and sociological perspectives which as separate disciplines are unable to capture the breadth and complexity of this topic **Meta-ethics, Moral Objectivity and Law** Veronica Rodriguez-Blanco,2004 The book shows the relevance of meta ethical and metaphysical considerations to determine the nature of law and the connection between objective moral and legal judgements The investigation analyses the legal theories of Ronald Dworkin J rgen Habermas and Michael Moore The conclusion of the scrutiny is that the discussed views fail to explain the plausible links between objective moral and legal judgements The lesson to learn from the failure of these philosophical perspectives is that we need to revise fundamental meta ethical conceptions within law In addition to the view that meta ethical and metaphysical considerations play a central role in our understanding of objective moral and legal judgements we enforce the idea that it is necessary to revise our meta ethical and metaphysical premises in jurisprudence Epistemic and meta ethical abstinence in legal theory in this way is challenged by a number of criticisms The outcome of our reflection is that in legal theory as in many other disciplines we need to take truth and objectivity seriously **An Introduction to Social Ethics** John Moffatt Mecklin,1920 *Christos Yannaras* Andreas Andreopoulos,Demetrios Harper,2018-09-03 Christos Yannaras is one of the most significant Orthodox theologians of recent times The work of Yannaras is virtually synonymous with a turn or renaissance of Orthodox philosophy and theology initially within Greece but as the present volume confirms well beyond it His work engages not only with issues of philosophy and theology but also takes in wider questions of culture and politics With contributions from established and new scholars the book is divided into three sections which correspond to the main directions that Christos Yannaras has followed philosophy theology and culture and reflects on the ways in which Yannaras has engaged and influenced thought across these fields in addition to themes including ecclesiology tradition identity and ethics This volume facilitates the dialogue between the thought of Yannaras which is expressed locally yet is relevant globally and Western Christian thinkers It will be of great interest to scholars of Orthodox and Eastern Christian theology and philosophy as well as theology more widely *The Blackwell Dictionary of Modern Social Thought* William Outhwaite,2008-04-15 Modern social thought ranges widely from the social sciences to philosophy political theories and doctrines cultural ideas and movements and the influence of the natural sciences Provides

an authoritative overview of the main themes of social thought Long essays and entries give full coverage to each topic Covers major currents of thought philosophical and cultural trends and the individual social sciences from anthropology to welfare economics New edition updates about 200 entries and includes new entries suggestions for further reading and a bibliography of all sources cited within the text

Meaning, Agency and the Making of a Social World Amitabha Das Gupta, 2019-05-01 This book explores a vital but neglected element in the philosophy of social science the complex nature of the social world By a systematic philosophical engagement it conceives the social world in terms of three basic concerns epistemic methodological and ethical It examines how we cognize study and ethically interact with the social world As such it demonstrates that a discussion of ethics is epistemically indispensable to the making of the social world The book presents a new interpretation of philosophy of social science and addresses a series of related topics including the role of the human subject in the context of scientific

knowledge objectivity historicity meaning and nature of social reality social and literary theory scientific methodology and fact value dichotomy human and collective agency and the limits to relativism Examining each in turn it argues that the social world is constructed through human actions and becomes significant because we ascribe meaning to it This is organized around discussions on the meaning agency and the making of a social world The book will be useful to scholars and researchers of philosophy of social science political philosophy and sociology Final Moral Values in Sociology ...
