## Wolf No Wolf:

**Wolf, No Wolf** Peter Bowen, 2018-06-05 A storm is brewing in Toussaint between the ranchers and environmentalists and it's up to Du Pr to stop the bloodshed. Two men have been cutting fences at the ranches of Toussaint Montana losing thousands of dollars of cattle to use as target practice for their 22 rifles. Are they thieves? Pranksters? Local cattle inspector Gabriel Du Pr guesses they're environmentalists agitating for the reintroduction of native wolves to Montana's high plains. Du Pr knows that the environmentalists are trying to send a message to the ranchers of eastern Montana. He also has a hunch that they are already dead. When the activists are found shot to death, Du Pr attempts to contain the chaos. The FBI descends but their agents are as clueless in this territory as the hapless environmentalists. One of Toussaint's citizens committed this crime: killing to protect the traditional way of ranching life, a loyalty that Du Pr shares. If anyone is going to arrest his people, it will be the cattle inspector himself.

**Wolf, No Wolf** Peter Bowen, 1996 When a group of environmentalists protests cattle grazing practices by cutting ranch fences and shooting cattle, a mass murderer begins stalking down each participant and Gabriel Du Pre becomes involved in a subsequent FBI investigation. *Protecting the Wolf's Mate* Sasha Summers, 2018-10-22 Ellen has one goal: vengeance. With little memory of her life before her imprisonment by a maniacal werewolf, her world has been full of pain, humiliation, and fear. But now that she's been rescued, her need for revenge is challenged by the urge to be part of a pack and the unshakable connection to Hollis, the man her wolf claims as their mate. Hollis will do whatever it takes to protect his pack, and that includes looking after Ellen, who doesn't need or want his help. He's determined to keep her safe, even though she's hell-bent on revenge, even if that means sacrificing himself. And it might come to that when the big bad comes back for the one woman he can't live without. Jacobson, 2014-08-29 This book provides an introduction to compositional semantics and to the syntax semantics interface. It is rooted within the tradition of model-theoretic semantics and develops an explicit fragment of both the syntax and semantics of a rich portion of English. Professor Jacobson adopts a Direct Compositionality approach whereby the syntax builds the expressions while the semantics simultaneously assigns each a model-theoretic interpretation. Alongside this approach, the author also presents a competing view that makes use of an intermediate level, Logical Form. She develops parallel treatments of a variety of phenomena from both points of view with detailed comparisons. The book begins with simple and fundamental concepts and gradually builds a more complex fragment including analyses of more advanced topics such as focus, negative polarity, and a variety of topics centering on pronouns and binding, more generally. Exercises are provided throughout alongside open-ended questions for students to consider. The exercises are interspersed with the text to promote self-discovery of the fundamentals and their applications. The book provides a rigorous foundation in formal analysis.
