*Gender-Specific Inequalities in the Education System and the Labor Market* Pia Blossfeld, Magdalena Pratter, Wilfred Uuk, 2023-08-15 Two remarkable trends concerning women's educational and labor market outcomes in modern Western societies can be observed. Firstly, in recent decades, women have been catching up with and have even overtaken men in educational attainment. Secondly, women continue to choose educations and occupations in Science, Technology, Engineering, and Mathematics (STEM) less often than men. This research topic will focus upon these gender-specific trends with a view to analyzing some of their causes and consequences.

*Immovable Laws, Irresistible Rights* Christine Pierce, 2000 Same sex partnerships, pregnancy through in vitro fertilization, ending one's own life in dignity. All are deemed inherently wrong by the standards of natural law ethics, but for many people they represent legitimate life choices that are morally right. Now a leading feminist critic of the natural law tradition explores the ongoing confrontation between natural law and moral rights to argue that rights constitute a more solid grounding for ethics in human affairs and for feminist thought. In this volume, Christine Pierce's important essays, including the celebrated "Natural Law, Language, and Women," expand, reflect, and refine this central controversy. Reaching back to Aristotle and Aquinas and drawing on modern papal encyclicals and Supreme Court cases, Pierce demonstrates that the natural law tradition, with its doctrine of a supposed hierarchy of natural purpose, has served to mystify women's nature and thereby justify restricting women to a predetermined social stratum. Addressing issues that concern not only feminism but legal theory as well, she defends her views on equality and universalization against a growing postmodern critique and presents rights theory as an alternative to an ethics of responsibility based on Aristotelian notions of friendship and trust. Through tightly constructed arguments presented in engaging prose, Pierce conveys her deep knowledge of legal philosophy and her passion for rights as she takes on such issues as AIDS, gay marriage, animal liberation, and feminist separatism. She combats the prevailing view of Plato as sexist and explores Sartre's views of holes and slime. She also examines the work of

contemporary authors in ecology biology sociobiology and religion to reveal their reliance on nature for ethical conclusions and she criticizes recent efforts to root a feminist natural law in Thomism With natural law concepts now in fashion with many conservatives and even some Supreme Court justices Pierce s essays offer a necessary perspective on where current legal and ethical thinking is headed **Immovable Laws Irresistible Rights** is invigorating reading for all scholars students and interested readers who seek a better understanding of these arguments and the issues affected by them **Social Psychology and Human Sexuality** Roy F. Baumeister,2001 Presents a selected group of influential articles dealing specifically with the social aspects of sexuality topics covered include differences between male and female sexuality virginity harassment rape and coercion and jealousy **Handbook for Women Scholars** ,1982 **Voting For Women** Kathy Dolan,2018-03-09 This book explains how voters evaluate women candidates who votes for them and why Women comprise an ever increasing percentage of the candidate pool for elective office in the United States Public opinion surveys profess strong support for female candidaes yet many of these same candidates still encounter skepticism at best or hostility at worst from the public The role of candidates gender in elections is a complex one Yet our understanding of how voters react to these women is often based on election specific anecdotal or hypothetical evidence **Voting for Women** is one of the first book length treatments of both how the public evaluates female candidates and whether and when people will support them at the polls It also provides a history of women and elections in the U S and analysis of contemporary data on how voting environments can influence women s success **Canadian Essentials of Nursing Research** Joanne Profetto-McGrath,Denise F.
