Womans Notebook Iii:

A Woman's Notebook III Amira Dvorah,1983-03-01 **Women in Love** D. H. Lawrence,1987-05-21 This edition of *Women in Love* reveals the work as Lawrence himself created it *By the Sweat of Their Brow* Angela V. John,2013-11-05 The pit brow lasses who sorted coal and performed a variety of jobs above ground at British coal mines prompted a violent debate about women's work in the nineteenth century Seen as the prime example of degraded womanhood the pit brow woman was regarded as an aberration in a masculine domain cruelly torn from her natural sphere the home The attempt to restrict women's work at the mines in the 1880s highlights the dichotomy between the fashionable ideal of womanhood and the necessity and reality of female manual labour Although only a tiny percentage of the colliery labour force the pit lasses aroused an interest out of all proportion to their numbers and their work became a test case for women's outdoor manual employment Angela John discusses the implications of this debate showing how it encapsulates many of the ambivalences of late Victorian attitudes towards working class female employment and at the same time raises wider questions both about women's work in industries seen as traditionally male enclaves and about the ways in which women within the working community have been presented by historians This book was first published in 1980 **The First 'Women in Love'** D. H. Lawrence,2002-05-02 *The First Women in Love* is one of Lawrence's greatest works and is the only full length work of fiction which he completed between *The Rainbow* and the extensively revised *Women in Love* It is a piece of fiction generated in the England and the Europe of the First World War Publishers were alarmed by the fate of his previous novel *The Rainbow* and *The First Women in Love* was rejected by every publisher who saw it As a result it is a novel whose very existence as an independent text has been ignored and which has not been published until now *The First Women in Love* shares much of its material with *Women in Love* but its central relationships are dissimilar and the ending radically different **Women's Bands in America** Jill M. Sullivan,2016-12-12 *Women's Bands in America* is the first comprehensive exploration of women's bands across the three centuries in American history Contributors trace women's emerging roles in society as seen through women's bands concert and marching spanning three centuries of American history Authors explore town immigrant industry family school suffrage military jazz and rock bands adopting a variety of methodologies and theoretical lenses in order to assemble and interrogate their findings within the context of women's roles in American society over time Contributors bring together a series of disciplines in this unique work including music education musicology American history women's studies and history of education They also draw on numerous primary sources diaries film military records newspaper articles oral history interviews personal letters photographs published ephemera radio broadcasts and recordings Thoroughly contributors engage in archival historical research biography case study content analysis iconographic study oral history and qualitative research to bring their topics to life This ambitious collection will be of use not only to students and scholars of instrumental music education music history and ethnomusicology but also gender studies and American social history

This book explores the legal culture of the Parsis or Zoroastrians an ethnoreligious community unusually invested in the colonial legal system of British India and Burma Rather than trying to maintain collective autonomy and integrity by avoiding interaction with the state the Parsis sank deep into the colonial legal system itself From the late eighteenth century until India s independence in 1947 they became heavy users of colonial law acting as lawyers judges litigants lobbyists and legislators They de Anglicized the law that governed them and enshrined in law their own distinctive models of the family and community by two routes frequent intra group litigation often managed by Parsi legal professionals in the areas of marriage inheritance religious trusts and libel and the creation of legislation that would become Parsi personal law Other South Asian communities also turned to law but none seems to have done so earlier or in more pronounced ways than the Parsis
