Ussher, Jane Ussher, 2011-03-28 Nominated for the 2012 Distinguished Publication Award of the Association for Women in Psychology Why are women more likely to be positioned or diagnosed as mad than men If madness is a social construction a gendered label as many feminist critics would argue how can we understand and explain women's prolonged misery and distress In turn can we prevent or treat women's distress in a non pathologising women centred way The *Madness of Women* addresses these questions through a rigorous exploration of the myths and realities of women's madness Drawing on academic and clinical experience including case studies and in depth interviews as well as on the now extensive critical literature in the field of mental health Jane Ussher presents a critical multifactorial analysis of women's madness that both addresses the notion that madness is a myth and yet acknowledges the reality and multiple causes of women's distress Topics include The genealogy of women's madness incarceration of difficult or deviant women Regulation through treatment Deconstructing depression PMS and borderline personality disorder Madness as a reasonable response to objectification and sexual violence Women's narratives of resistance This book will be of great interest to students and scholars of psychology gender studies sociology women's studies cultural studies counselling and nursing *Women & Madness* Phyllis Chesler, 1973 *Women and Health Care* Sheryl Burt Ruzek, 1975 *The Pack of Women* Robyn Archer, 1986 **Women, Sex, and Madness** Breanne Fahs, 2019-07-22 Covering a wide variety of subjects and points of inquiry on women's sexuality from genital anxieties about pubic hair to constructions of the body in the therapy room this book offers a ground breaking examination of women sex and madness drawing from psychology gender and sexuality studies and cultural studies Breanne Fahs argues that women's sexuality embodies a permanent state of tension between cultural impulses of destruction and selfishness contrasted with the fundamental possibilities of subversiveness and joy Emphasizing cultural social and personal narratives about sexuality Fahs asks readers to imagine sex bodies and madness as intertwined and to see these narratives as

fluid contested and changing With topics as diverse as anarchist visions of sexual freedom sexualized emotion work lesbian haunted houses and the insidious workings of capitalism Fahs conceptualizes sexuality as a force of regressive moral panics and profound inequalities deployed in both blatant and more subtle ways onto the body while also finding hope and resistance in the possibilities of sexuality By integrating clinical case studies cultural studies qualitative interviews and original essays Fahs offers a provocative new vision for sexuality that fuses together social anxieties and cultural madness through a critical feminist psychological approach Fahs provides an original and accessible volume for students and academics in psychology gender and sexuality studies and cultural studies Poetica Erotica Thomas Robert Smith,1922
