**Abstract.** Empowerment is also understood as the ability to work in order to improve their standards and quality of life, the means by which individuals, groups and societies gain control over their own goals. The theoretical foundations of women's empowerment began to form in 1985. Women's empowerment is a process that organizes and freely directs women to provide themselves, organize and shape their freedom, and control their resources by eliminating their dependency. A number of advances have been made in recent times in the empowerment of women. But the promise of a world where every woman and girl enjoys full gender equality and all legal, social and economic barriers to their empowerment are removed has not been fulfilled. The purpose of the study is to look at several forms of women's empowerment, analyze the results, identify future goals and make recommendations. Therefore, the available literature in this field was analyzed and a comprehensive analysis was conducted.

**Keywords:** female empowerment, gender equality, human rights

### GİRİŞ

Güc haqqında düşünməyin əsas yollarından biri seçim etmək qabiliyyətinə sahib olmaq və səlahiyyətsiz olmaq seçimlərdən məhrum olmaq deməkdir. Ən çox qəbul edilən tərif, səlahiyyətləndirməni insanın əvvəllər bu qabiliyyətdən məhrum olduğu bir mühitdə düşünülmüş və strateji həyati seçimləri (məsələn, yaşamaq seçimi və kimin sənənmək və ya etməmək kimi əsas qərarlar) etmək qabiliyyətinin artması kimi təyin edir. (Kabeer, 1999)

Səlahiyyətləndirmə öz yaşam standartlarını və keyfiyyətini artırmaq məqsədi ilə işləmək bacarığının olması, şəxslərin, qrupların və cəmiyyətlərin öz məqsədləri üzərində nəzarəti ələ keçirmək vasitələri kimi də başa düşülür. (Həbib, Şafiq, Afshan, & Qamar, 2019)

**The Woman's Medical Journal** ,1919      Family, Self, and Society Philip A. Cowan, Dorothy Field, Donald A. Hansen, Arlene Skolnick, Guy E. Swanson, 2014-05-22 Any agenda for family research in the 1990s must take seriously a contextual approach to the study of family relationships The editors and contributors to this volume believe that the richness in family studies over the next decade will come from considering the diversity of family forms different ethnic groups and

cultures different stages of family life as well as different historical cohorts Their goal is to make more explicit how we think about families in order to study them and understand them To illustrate the need for diversity in family studies examples are presented from new and old families majority and minority families American and Japanese families and intact and divorcing families This variety is intended to push the limits of current thinking not only for researchers but also for all who are struggling to live with and work with families in a time when family life is valued but fragmented and relatively unsupported by society's institutions Students and researchers interested in family development from the viewpoint of any of the social sciences will find this book of value
