Freedom from poverty as a human right: economic perspectives Andreassen, Bard A.,Marks, Stephen P.,Sengupta, Arjun,2010-06-04 **Women's Changing Participation in the Labor Force** T. Paul Schultz,1989 Research has rarely tested the proposition that women have lost more than men when low income countries introduce minimum wage legislation and certain other labor market regulations that raise the cost of labor to firms compared with families. But such interventions in the labor market may slow women's transition from nonmarket and family work to employment by firms. And that may affect the rate and structure of economic growth.
