Women In Congress:

The Impact of Women in Congress Debra L. Dodson, 2006-05-18 While existing literature provides compelling evidence that women in public office make a difference the relationship between descriptive and substantive representation of women in political institutions long the domain of men is neither simple nor certain Embracing New Institutionalists warnings of the dangers of studying behaviour in an institutional vacuum this book uses two strikingly different yet consecutive congresses the Democratically controlled 103rd Congress elected during the Year of the Woman and the Republican controlled 104th Congress elected during the Year of the Angry White Male as laboratories to explore the complexity of the relationship between women s presence and impact In depth interviews with hundreds of staff lobbyists and women members of Congress along with other quantitative and archival data are the foundation for case studies of three highly visible policy areas reproductive rights women s health and health care policy important to women but with strikingly different outcomes across the two Congresses The inquiry is quickly moved beyond the simple question Do women make a difference Dodson confronts the contested issues surrounding difference which often lurk beneath the surface the probabilistic rather than deterministic relationship between descriptive and substantive representation of women the contested legitimacy of women representing women and the disagreement about what it means to represent women The analysis moves the literature toward a better integrated understanding of how gendered forces at the individual institutional and societal levels combine to reinforce and redefine gendered relationships to power in the public sphere The results can be generalized over time and across settings are meaningful even in periods when the answer to the question of whether women make a difference seems to be more frequently no than yes and point to strategies that may bolster the impact of women s presence for substantive representation of women Women in Congress, 1917-1976 Susan J. Tolchin, 1976 Printed for the use of the Joint Committee on Arrangements for the Commemoration of the Bicentennial **Women in Congress, 1917-1990**, 1991

Congressional Women Irwin N. Transforming Congress Cindy Simon Rosenthal, 2002 From the first to one of the most recent Jeannette Rankin Montana 1916 to Hillary Rodham Clinton New York 2001 only two hundred women have ever served in the U S Congress Have these relatively few women changed the predominantly masculine institution in which they serve Have women as voters activists staff and members made a difference Edited by Cindy Simon Rosenthal Women Transforming Congress examines the increasing influence of women on Congress and the ways in which gender defines and shapes Congress as a political institution Written by women in politics and leading scholars on Congress the essays in this volume go beyond the limitations of prior research through their diverse analytical approaches and singular historical breadth The volume follows women on the campaign trail in committee rooms in floor debate and in policy deliberations where previously the focus was on men s

interests and activities A gallery of photographs showing notable women from their earliest years of involvement with Congress to the present complements the essays

A Seat at the Table Kelly Dittmar, Kira Sanbonmatsu, Susan J. Carroll, 2018-08-17 The presence of women in Congress is at an all time high approximately one of every five members is female and record numbers of women are running for public office for the 2018 midterms At the same time Congress is more polarized than ever and little research exists on how women in Congress view their experiences and contributions to American politics today Drawing on personal interviews with over three quarters of the women serving in the 114th Congress 2015-17 the authors analyze how these women navigate today's stark partisan divisions and whether they feel effective in their jobs Through first person perspectives A Seat at the Table looks at what motivates these women's legislative priorities and behavior details the ways in which women experience service within a male dominated institution and highlights why it matters that women sit in the nation's federal legislative chambers It describes the strategies women employ to overcome any challenges they confront as well as the opportunities available to them The book examines how gender interacts with political party race and ethnicity seniority chamber and district characteristics to shape women's representational influence and behavior finding that party and race ethnicity are the two most complicating factors to a singular narrative of women's congressional representation While congresswomen's perspectives experiences and influence are neither uniform nor interchangeable they strongly believe their presence matters in myriad ways affecting congressional culture priorities processes debates and outcomes

A Woman's Place Is in the House Barbara Burrell, 2010-05-07 In this first comprehensive examination of women candidates for the U S House of Representatives Barbara Burrell argues that women are as successful at winning elections as men Why then are there still so few women members of Congress Compared to other democratically elected national parliaments the U S Congress ranks very low in its proportion of women members During the past decade even though more and more women have participated in state and local governments they have not made the same gains at the national level A Woman's Place Is in the House examines the experiences of the women who have run for a seat in the U S House of Representatives from 1968 through 1992 and compares their presence and performance with that of male candidates The longitudinal study examines both general and primary elections and refutes many myths associated with women candidates including their ability to raise money and garner support from both interest groups and political parties According to Burrell election year 1992 was correctly dubbed the Year of the Woman in American politics not so much because women overcame perceived barriers to being elected but because for the first time a significant number of women chose to run in primaries Burrell's study examines the effects women are having on the congressional agenda and offers insight on how such issues as term limitations and campaign finance reform will impact on the election of women to Congress Barbara Burrell Ph D University of Michigan is professor and director of graduate studies in the Political Science Department at Northern Illinois University where she teaches courses in public opinion political behavior and women and

politics Claiming Her Place in Congress Katherine H. Adams, 2019-07-01 The fall of 2018 saw an unprecedented number of women elected to Congress changing estimates of how long it might take to achieve equal representation For the first time women candidates used techniques honed by America's political families which have helped women enter politics since 1916 Drawing on extensive research and conversations with successful women politicians this book offers a history of the political opportunities provided through familial connections Family networks have a long history of enabling women to run for political office There is much for the latest group of candidates to emulate

The Women's Liberation Movement in Russia Richard Stites, 1978-02-21 This book offers a brilliant treatment of many facets of its subject but it also ends up being for the reader one of the finest general histories to be found of these crucial years in Russian history The source material is unbelievably detailed and clearly cited on each page Not only that the writing is at many points the boldest clearest I've almost ever found in the Academy The author's opinions summaries insights easily spill out of the historical constructions The presence of the author's psyche he never hides behind his quotes means the material is contoured The reader gets not only huge amounts of information but an authorial presence as company that is often daring bold insightful revelatory And one stylistic point made me especially happy when Stites uses metaphors to explain history these are revelatory and their internal implications are followed through in the prose from [www goodreads com](http://www.goodreads.com) Feb 2 2011

The Difference Women Make Michele L. Swers, 2020-05-21 What if there were more women in Congress Providing the first comprehensive study of the policy activity of male and female legislators at the federal level Michele L Swers persuasively demonstrates that even though representatives often vote a party line their gender is politically significant and does indeed influence policy making Swers combines quantitative analyses of bills with interviews with legislators and their staff to compare legislative activity on women's issues by male and female members of the House of Representatives during the 103rd 1993-94 and 104th 1995-96 Congresses Tracking representatives' commitment to women's issues throughout the legislative process from the introduction of bills through committee consideration to final floor votes Swers examines how the prevailing political context and members' positions within Congress affect whether and how aggressively they pursue women's issues Anyone studying congressional behavior the role of women or the representation of social identities in Congress will benefit from Swers's balanced and nuanced analysis

The Homestead, 1928 *Breaking the Political Glass Ceiling* Barbara Palmer, Dennis Michael Simon, 2006 At the dawn of the new millennium only twenty five percent of elected state legislators were female only five states had female governors and a mere fourteen percent of the members of Congress were women Extrapolating from data on women candidates in Congressional races from 1956 to 2002 Palmer and Simon explore how incumbency social attitudes and electoral strategy affect women's decisions to run for office They dispel myths distorting our understanding of

women candidates and challenge the reigning theories accounting for the low number of female Congress members Breaking the Political Glass Ceiling is the most comprehensive analysis of women in Congressional elections available **Annual register of women's clubs**, 1925 Congressional Record United States.
