Truth About Postmodernism:

The Truth about Postmodernism Christopher Norris, 1993-05-07 This book was written with a view to sorting out some of the muddles and misreadings especially misreadings of Kant that have characterized recent postmodernist and post-structuralist thought. For these issues have a relevance as Norris argues far beyond the academic enclaves of philosophy, literary theory and cultural criticism. Thus he makes large claims for the importance of getting Kant right on the relation between epistemology, ethics and aesthetics for pursuing the Kantian question: What is Enlightenment as raised in Foucault's late essays or again for recalling William Empson's spirited attempt to reassert the values of reason and truth against the orthodox lit-crit wisdom of his time. These are specialized concerns. But for better or worse it has been largely in the context of theory that this capacious though ill-defined genre that such issues have received their most scrutiny over the past two decades. As its title suggests, *The Truth About Postmodernism* disputes a good deal of what currently passes for advanced theoretical wisdom. Above all it mounts a challenge to those fashionable doctrines, variants of the end-of-ideology theme that assimilate truth to some existing range of language games, discourses or in-place consensus beliefs. Norris's book will be welcomed for its clarity of style, its depth of philosophical engagement and its refusal to endorse the more facile varieties of present-day textualist thought. It will also serve as a timely reminder that the politics of theory cannot be practised in safe isolation from the politics and ethics of activist social concern.

CRITICAL ESSAYS ON POSTMODERNISM Godfrey O. Ozumba, Patrick J. Mendie, Michael Ukah & Christopher A. Udofia (Edited), 2017 The aim of this book is to tell a fuller story of postmodernism as applied to philosophy and a few other related disciplines. The book considers postmodernism from different angles. Apart from examining the nexus between postmodernism and different branches of philosophy, the ideas of leading postmodern thinkers we critically discussed. In an age where students find it very difficult to buy relevant books, this book is a handy reference material because it covers the very essential areas of postmodernism. I must commend the Editors of the book for their editorial astuteness and all the contributors for exhibiting a wonderful and overwhelming enlightenment for philosophy students and students of related disciplines. I strongly recommend the book for these and enlightened readers who seek a deeper knowledge of the subject.

Preaching Christ in a Postmodern Culture K. A. Beville, 2010-04-16 Starting with some observations relating to shifts in ecclesiology and identifying them as a move beyond contextualization to syncretism, this work goes on to assess the feasibility of preaching in a postmodern culture which rejects both the idea of absolute truth and authority used as power. It traces the historical and philosophical development of postmodernism. The Enlightenment project is deemed to have failed and Christianity is perceived as an oppressive metanarrative. In a world that is becoming increasingly sceptical and where preaching practitioners are becoming disillusioned, this book offers some guidelines about preaching to postmoderns. In a relational age, rationality is impotent but the author distinguishes between authoritative and authoritarian preaching, allowing hope for the survival of the homiletic task. Humility is presented as

preferable to certitude and persuasion is redefined The author suggests using an inductive mode of communication as a means of engaging postmodern listeners He signposts a way forward in the labyrinthine complexity of the new paradigm and demonstrates that the homiletic task is still feasible Thus this book will be of interest to teachers and students of theology as well as pastors desiring to develop a new apologetic strategy **Post-everything** Herman Paul,Adriaan van Veldhuizen,2021-07-17 Postmodern postcolonial and post truth are broadly used terms But where do they come from When and why did the habit of interpreting the world in post terms emerge And who exactly were the post boys responsible for this Post everything examines why post Christian post industrial and post bourgeois were terms that resonated not only among academics but also in the popular press It delves into the historical roots of postmodern and poststructuralist while also subjecting more recent post constructions posthumanist postfeminist to critical scrutiny This study is the first to offer a comprehensive history of post concepts In tracing how these concepts found their way into a broad range of genres and disciplines Post everything contributes to a rapprochement between the history of the humanities and the history of the social sciences An electronic edition of this book is freely available under a Creative Commons CC BY NC ND licence

of participants lived experiences of masculinities alongside the author's reflections. It explores the relevance of toxic masculinity in work environments, politics, relationships, and gender roles and seeks to challenge and mitigate its damages for everyone. Encouraging critical thinking and understanding of healthier ways of being for all, this timely book will be of interest to therapists, counselors, teachers, and practitioners of family studies. It will also be useful reading for students in the fields of psychology, gender studies, sociology, and related fields.

Postmodern Philosophy and Law Douglas E. Litowitz, 1997
The author presents a two-tiered analysis that views postmodern legal thought as both a collective intellectual movement and as the work of particular theorists, notably Friedrich Nietzsche, Michel Foucault, Jacques Derrida, Francois Lyotard, and Richard Rorty. He concludes that even though postmodern thought does not give rise to a normative theory of right that can be used as a framework for deciding cases, it can focus attention on genealogy and discourse and can empower those who have been denied a voice in the legal system. Unreasonable Doubt Sergiu Margan, 2025-12-23
Why do reason, science, and history, our most trusted guides, collapse when separated from God? In *Unreasonable Doubt*, Sergiu Margan argues that the very frameworks skeptics use to dismiss God are only coherent because of him. Reason assumes an order it cannot explain; science presupposes laws it cannot ground; and history depends on testimony it cannot justify without trust. Strip away God, and each discipline falls into contradiction. This is not a book of slogans but a guided exploration of the deepest questions: Can moral values stand without a Lawgiver? Why does science rely on rational laws rather than chaos? How can history preserve truth if human testimony is dismissed? Written in clear, accessible language for seekers, students, pastors, and thoughtful skeptics, *Unreasonable Doubt* demonstrates that belief in God is not only intellectually sound but essential. It invites readers to see that the very pursuit of truth leads back to the Source of truth himself.

Why Believe Tawa J. Anderson, 2021-07-09
Why Believe provides accessible explanations of several core concerns of apologetics, from arguments for the existence of God and the validity of Christ's resurrection to common questions about the practice of faith.

Struggling With the Postmodern Crisis of History in Julian Barnes's *Flaubert's Parrot* (1984) Tessa Tumbrägel, 2012-02
Bachelor Thesis from the year 2011 in the subject English Language and Literature Studies, Literature grade 1.0, University of Passau, language English, abstract: *Flaubert's Parrot*, Julian Barnes's most acclaimed novel, worldwide poses and playfully elaborates on questions about traditionalist understandings of history and conventional concepts of truth, which are also frequently asked by postmodern theorists and philosophers: How can we know the past? Can we ever do so on objective grounds? Are we not bound to socio-culturally determined modes of representation that prevent us from thinking or writing about anything but representation? Does the past even exist outside of our systems of signification, or is it merely the product of these systems? In postmodern thought, these kinds of questions are raised in the context of an increasing scepticism towards realist or modernist ontology and epistemology. Philosophers and writers such as Jacques Derrida, Michel Foucault, and later Hayden White and Keith Jenkins testify to the assumption that history now appears to be

just one more foundationless positioned expression in a world of foundationless positioned expressions Jenkins 1997 6 stressing that there is an inescapable relativity in every representation or rather re interpretation of historical entities of White 1997 392 However in this paper I will hope to show that despite it being a very hard and indeterminate act to follow Barth 1980 66 history is not dead in Barnes s novel and neither is the pursuit of its meaning In fact both remain subjects of a longing for truth and authenticity that is repeatedly re invented played with undermined and reinstalled rather than deconstructed in the course of FP s narrative I intend to divide my paper into two sections each of them further divided into several sub parts In section one I will at first provide a short compendium of postmodern philosophical theoretical assumptions on histo

The Way of Truth in the Present

Age Craig M. Gay, C. Pete Molloy, 1999 Postmodernity explains J I Packer is popularly equated with a denial that there is any such thing as universal public truth the idea being that there is only my truth and your truth that which is true for me and that which is true for you but there is no truth that is true for everybody In February of 1998 six Canadian Anglican scholars paused to consider the various challenges of postmodernism at a Western Theological Conference entitled The Way of Truth in the Present Age sponsored by the Prayer Book Society of Canada and held at St John s Shaughnessy Church in Vancouver All six addressed the problems associated with affirming Christianity today in a culture that has become increasingly skeptical of all truth claims Although written within the context of the Anglican Communion and directed primarily to an Anglican audience the addresses have been published together in this volume as they concern matters that are of pressing relevance to all Christians today From publisher s description Truth, Politics and 'post-modernism' Richard Rorty, 1997
