State Of Corruption:

State Criminality Dawn Rothe, 2009-01-01 State crimes are historically and contemporarily ubiquitous and result in more injury and death than traditional street crimes such as robbery theft and assault Consider that genocide during the 20th century in Germany Rwanda Darfur Albania Turkey Ukraine Cambodia Bosnia Herzegovina and other regions claimed the lives of tens of millions and rendered many more homeless imprisoned and psychologically and physically damaged Despite the gravity of crimes committed by states and political leaders until recently these harms have been understudied relative to conventional street crimes in the field of criminology Over the past two decades a growing number of criminologists have conducted rigorous research on state crime and have tried to disseminate it widely including attempts to develop courses that specifically address crimes of the state Referencing a broad range of cases of state crime and international institutions of control *State Criminality* provides a general framework and survey style discussion of the field for teaching undergraduate and graduate students and serves as a useful general reference point for scholars of state crime

The Democratic Republic of the Congo, Broken State, Collapse of Law, Human Rights Violations, Veil of Injustice and Constitutional Smokescreens—A Case Study in State Failure: Felix Kaputu, 2024-07-25 For over twenty five years the Democratic Republic of the Congo has been depicted by the media as a nation in turmoil Armed militias and armies ravage villages stealing crops and minerals while proxy wars displace countless citizens Political violence corruption and social insecurity plague the nation leading to a humanitarian crisis where fundamental human rights are routinely violated This book delves into the harrowing realities of life in Congo where public education and healthcare are in shambles and most people live on less than two dollars a day Amidst this political leaders enjoy exorbitant salaries while public servants endure poverty This empirical research critically examines the gap between the constitutional provisions of human rights and their implementation presenting stark indicators of a failed state By analyzing the human rights situation from the Universal Declaration of Human Rights to the current state Constitution the book reveals the Congo s descent into chaos and calls for accountability for its violations

America's State Governments Jennifer Bachner, Benjamin Ginsberg, 2020-07-23 This timely and important new work takes a critical look at government in the American states and illustrates the disconnect between state government institutions and their constituents The text illuminates three basic political problems of state governments weak constitutional and institutional foundations a lack of civic engagement and long histories of unchecked public corruption In addition the book explains why some states did and others did not respond promptly to the COVID 19 pandemic and examines America s long standing problem of police and prosecutorial misconduct providing a context for understanding the demonstrations and protests that rocked American cities in the summer of 2020 For students and citizens of state politics the book concludes with a proposal aimed at civic literacy and action

Taxing the State Richard F. Winters, 2025-10-31 *Taxing the State* The Politics of Changing Taxes in the American States is a comparative analysis that

Powell,2012-03-06 Campaign contributions are widely viewed as a corrupting influence but most scholarly research concludes that they have marginal impact on legislative behavior Lynda W Powell shows that contributions have considerable influence in some state legislatures but very little in others Using a national survey of legislators she develops an innovative measure of influence and delineates the factors that explain this great variation across the 99 U S state legislative chambers Powell identifies the personal institutional and political factors that determine how much time a legislator devotes to personal fundraising and fundraising for the caucus She shows that the extent of donors legislative influence varies in ways corresponding to the same variations in the factors that determine fundraising time She also confirms a link between fundraising and lobbying with evidence supporting the theory that contributors gain access to legislators based on donations Powell s findings have important implications for the debate over the role of money in the legislative process *Crime-Terror Alliances and the State* Lyubov Mincheva,Ted Robert Gurr,2013-01-03 This book examines the trans border connections between militant and criminal networks and the relationship between these and the states in which they operate Unholy alliances is a term used to describe hybrid trans border militant and criminal networks that pose serious threats to security in Europe and elsewhere Identity networks provide the basis for militant organizations using violent strategies insurgency and terrorism for political objectives To gain funds and weapons militant networks may establish criminal enterprises or align with existing trans border criminal and financial networks This book extends the concept of unholy alliances to include the trans state criminal syndicates that arise in failed and dysfunctional states exemplified by Serbia and Bulgaria during their post Communist transitions To deal with this complex and unconventional subject the authors develop a theoretical framework that looks at four kinds of factors conditioning the interaction between the political and the criminal trans state identity networks armed conflict the balance of market opportunities and constraints and the role of unstable and corrupt states The volume also examines actors at two levels of analysis the structure and activities of militant and or criminal networks and the policies of state actors that shape and reshape the interaction of opportunities and constraints This book will be of much interest to students of terrorism insurgency transnational crime war and conflict studies and IR in general *Reports of Cases Decided in the Supreme Court of the State of Indiana* Indiana.

Pennsylvania, a State of Corruption Stephen Worob, 2009 In 1992 I volunteered my services at the Morrisville School board to make my small town a better place Thirteen years later I was persecuted by a powerful and evil justice system that inflicted unbearable heartache that stole my family's future for honoring my oath My crime was that I passionately stood up and spoke out against corruption and refused to be silenced As my wife battled for her life with cancer Pennsylvania's vindictive system of justice caused our family to be dragged for more than two years through a frivolous lawsuit and misguided judgment that tore my family apart I wrote this book to inform people that law enforcement is selective and our court system is being used to protect corruption while our watchdogs are under sieged Worst of all our so called servants of the public control the media and will crush anyone who stands in their way *The Compiled Laws of the State of Utah, 1917* ...
