State Capitalism and World Revolution C.L.R. State Capitalism: The Wages System under New Management Adam Buick, John Crump, 1986-10-10 Here is the first comprehensive exposition of the theory of state capitalism Using a Marxist theoretical approach Buick and Crump show that private capitalism and state capitalism are equally suitable institutional arrangements for allowing capital to

exploit wage workers State capitalism is examined in its Western form of selective nationalisation and in its full scale form as found in Russia or China The origins of Russian state capitalism are traced back to the 1917 revolution and Lenin s ideology Finally Buick and Crump suggest the kind of changed social relationships which would allow world capitalism to be replaced by world socialism

North Korea and the Geopolitics of Development Kevin Gray,Jong-Woon Lee,2021-04-15 Kevin Gray and Jong Woon Lee focus on three geopolitical moments that have been crucial to the shaping of the North Korean system colonialism the Cold War and the rise of China to demonstrate how broader processes of geopolitical contestation have fundamentally shaped the emergence and subsequent development of the North Korean political economy They argue that placing the nexus between geopolitics and development at the centre of the analysis helps explain the country s rapid catch up industrialisation its subsequent secular decline followed by collapse in the 1990s and why the reform process has been markedly more conservative compared to other state socialist societies As such they draw attention to the specificities of North Korea s experience of late development but also place it in a broader comparative context by understanding the country not solely through the analytical lens of state socialism but also as an instance of post colonial national development
