Representatives**

## **State Employment Policy In Hard Times:**

**State Employment Policy in Hard Times** Council of State Planning Agencies, 1983 Two hundred years ago Samuel Johnson observed that a society's level of civilization could be gauged by the manner in which it treated its poor By that measure the United States today is steadily losing ground Whereas the number of officially defined poor dwindled steadily from the enactment of the Great Society programs in the mid 1960s reaching a low of 24.5 million people in 1978 it has since risen to more than 32 million people Although the economy continues to generate large numbers of new jobs the basic unemployment rate continues to rise and current projections show little likelihood of unemployment rates consistently below 10 percent until some time after 1984 if then In the years to come the creation of an equitable and workable employment policy will be a major agenda item for politicians and policy makers at the state level as well as for national leaders

Schooling Reform In Hard Times Bob Lingard, John Knight, Paige Porter, 2003-09-02 Based on research carried out under Labour governments throughout the 1990s in Western Australia the authors consider the social political and economic conditions under which policy is formulated understood and enacted They look at how the state structure affects the content and nature of policy statements and provide an outline of the history of policy developments and point to future possibilities and probabilities Outcomes within funding ceilings accountability frameworks and national guidelines are but some of the changes referred to The emergence of competency based standards in education and training in schools workplaces and the professions is evident throughout Australia at state level but the concern is whether issues of education should be played out within the state and outside civil society The authors argue for the mediation in implementation of policy rather than a lambasting of policy formulation and implementation This text is intended for heads of education departments PGCE BED MEd students and researchers interested in education policy and planning Education policymakers and educational historians **Documents of the Senate of the State of New York** New York (State). Legislature. Senate, 1911

Disparate Regimes Brendan A. Shanahan, 2025 Historians have well described how US immigration policy increasingly fell under the purview of federal law and national politics in the mid to late nineteenth century It is far less understood that the rights of noncitizen immigrants in the country remained primarily contested in the realms of state politics and law until the mid to late twentieth century Such state level political debates often centered on whether noncitizen immigrants should vote count as part of the polity for the purposes of state legislative representation work in public and publicly funded employment or obtain professional licensure Enacted state alienage laws were rarely self executing and immigrants and their allies regularly challenged nativist restrictions in court on the job by appealing to lawmakers and the public and even via diplomacy Battles over the passage implementation and constitutionality of such policies at times aligned with and sometimes clashed against contemporaneous efforts to expand rights to marginalized Americans particularly US born women Often considered separately or treated as topics of marginal importance Disparate Regimes underscores the centrality of nativist

state politics and alienage policies to the history of American immigration and citizenship from the late nineteenth to the mid twentieth centuries It argues that the proliferation of these debates and laws produced veritable disparate regimes of citizenship rights in the American political economy on a state by state basis It further illustrates how nativist state politics and alienage policies helped to invent and concretize the idea that citizenship rights meant citizen only rights in law practice and popular perception in the United States
