Evaluation of retrieval accuracy and visual similarity in content-based image retrieval of chest CT for obstructive lung disease

Jooae Choe¹, HyeYoung Choi^{1,2}, Sang Min Lee^{2,3}, SangYoung Oh¹, Hye Jeon Hwang², Namkyug Kim^{1,2}, Jibye Yun², Jae Seung Lee⁴, Yeon-Mok Oh⁵, Dongheon Yu⁶, Byeongsso Kim⁷ & Joon Beom Seo¹

The aim of our study was to assess the performance of content-based image retrieval (CBIR) for similar chest computed tomography (CT) in obstructive lung disease. This retrospective study included patients with obstructive lung disease who underwent volumetric chest CT scans. The CBIR database included 600 chest CT scans from 541 patients. To assess the system performance, follow-up chest CT scans of 50 patients were evaluated as query cases, which showed the stability of the CT findings between baseline and follow-up chest CT, as confirmed by thoracic radiologists. The CBIR system retrieved the top five similar CT scans for each query case from the database by quantifying and comparing emphysema extent and size, airway wall thickness, and peripheral pulmonary vasculatures in descending order from the database. The rates of retrieval of the same pairs of query CT scans in the top 3–5 retrievals were assessed. Two expert chest radiologists evaluated the visual similarities between the query and retrieved CT scans using a five-point scale grading system. The rates of retrieving the same pairs of query CTs were 60.0% (30/50) and 48.0% (24/50) for top-three and top-five retrievals. Radiologists rated 64.8% (95% confidence interval 58.8–70.4) of the retrieved CT scans with a visual similarity score of four or five and at least one case scored five points in 7.4% (74/100) of all query cases. The proposed CBIR system for obstructive lung disease integrating quantitative CT measures demonstrated potential for retrieving chest CT scans with similar imaging phenotypes. Further refinement and validation in this field would be valuable.

Keywords Chronic obstructive pulmonary disease, Computed tomography, Machine learning, Content-based image retrieval

Due to substantial heterogeneity in physiological and imaging characteristics, therapy response, and disease course, including disease progression and mortality in patients with chronic obstructive pulmonary disease (COPD), there have been continuous efforts to characterize and define subtypes of COPD with distinct patterns of emphysema and airway disease in the past decade¹. Not all, but there are subgroups in which such efforts may afford a marked clinical benefit^{2–4}. Chest computed tomography (CT) imaging has revolutionized the diagnostic approach for COPD by defining phenotypes. Recognizing these different phenotypes in COPD and reclassifying COPD patient severity based on imaging measurements of the pathologies responsible for symptoms and progression, may serve as an initial move towards to start personalized or, at least, optimized therapies⁵. Chest CT allow emphysema classification and quantification, as well as quantification of other abnormalities, including

Stateoftheart In Contentbased Image And Video Retrieval

Victor M. Corman

Stateofheart In Contentbased Image And Video Retrieval:

State-of-the-Art in Content-Based Image and Video Retrieval Remco C. Veltkamp,Hans Burkhardt,Hans-Peter Kriegel,2013-04-17 Images and video play a crucial role in visual information systems and multimedia There is an extraordinary number of applications of such systems in entertainment business art engineering and science Such applications often involved large image and video collections and therefore searching for images and video in large collections is becoming an important operation Because of the size of such databases efficiency is crucial We strongly believe that image and video retrieval need an integrated approach from fields such as image processing shape processing perception database indexing visualization and querying etc This book contains a selection of results that was presented at the Dagstuhl Seminar on Content Based Image and Video Retrieval in December 1999 The purpose of this seminar was to bring together people from the various fields in order to promote information exchange and interaction among researchers who are interested in various aspects of accessing the content of image and video data The book provides an overview of the state of the art in content based image and video retrieval The topics covered by the chapters are integrated system aspects as well as techniques from image processing computer vision multimedia databases graphics signal processing and information theory The book will be of interest to researchers and professionals in the fields of multimedia visual information database systems computer vision and information retrieval

Handbook of Research on ICTs and Management Systems for Improving Efficiency in Healthcare and Social Care Cruz-Cunha, Maria Manuela,Miranda, Isabel Maria,Gonçalves, Patricia,2013-04-30 Through the use of ICT tools such as the internet portals and telecommunication devices the quality of healthcare has improved in local and global health aiding in the development of a sustainable economy Handbook of Research on ICTs and Management Systems for Improving Efficiency in Healthcare and Social Care brings together a valuable research collection on ICT elements needed to improve communication and collaboration between global health institutes public and private organizations and foundations Highlighting the adoption and success factors in the development of technologies for healthcare this book is essential for IT professionals technology solution providers researchers and students interested in technology and its relationship with healthcare and social services

Multimedia Analysis, Processing and Communications Lin Weisi,Dacheng Tao,Janusz Kacprzyk,Zhu Li,Ebroul Izquierdo,Haohong Wang,2011-04-11 This book has brought 24 groups of experts and active researchers around the world together in image processing and analysis video processing and analysis and communications related processing to present their newest research results exchange latest experiences and insights and explore future directions in these important and rapidly evolving areas It aims at increasing the synergy between academic and industry professionals working in the related field It focuses on the state of the art research in various essential areas related to emerging technologies standards and applications on analysis processing computing and communication of multimedia information The target audience of this

book is researchers and engineers as well as graduate students working in various disciplines linked to multimedia analysis processing and communications e.g. computer vision, pattern recognition, information technology, image processing and artificial intelligence. The book is also meant to a broader audience including practicing professionals working in image/video applications such as image processing, video surveillance, multimedia indexing and retrieval and so on. We hope that the researchers, engineers, students and other professionals who read this book would find it informative, useful and inspirational toward their own work in one way or another.

Pattern Recognition Bernd Radig, Stefan Florczyk, 2007-08-03. Sometimes milestones in the evolution of the DAGM Symposium become immediately visible. The Technical Committee decided to publish the symposium proceedings completely in English. As a consequence we successfully negotiated with Springer Verlag to publish in the international well-accepted series Lecture Notes in Computer Science. The quality of the contributions convinced the editors and the lecturers. Thanks to them and to the authors we received 105 acceptable, good and even excellent manuscripts. We selected carefully using three reviewers for each anonymized paper: 58 talks and posters. Our 41 reviewers had a hard job evaluating and especially rejecting contributions. We are grateful for the time and effort they spent in this task. The program committee awarded prizes to the best papers. We are much obliged to the generous sponsors. We had three invited talks from outstanding colleagues: namely Bernhard Nebel (Robot Soccer: A Challenge for Cooperative Action and Perception), Thomas Lengauer (Computational Biology: An Interdisciplinary Challenge for Computational Pattern Recognition) and Nassir Navab (Medical and Industrial Augmented Reality). Challenges for Real Time Vision, Computer Graphics and Mobile Computing. N. Navab even wrote a special paper for this conference which is included in the proceedings. We were proud that we could convince well-known experts to offer tutorials to our participants: H. P. Seidel (Univ. Saarbrücken: A Framework for the Acquisition, Processing and Interactive Display of High Quality 3D Models), S. Heuel (Univ. Bonn: Projective Geometry for Grouping and Orientation Tasks), G. Rigoll (Univ. **Advances in Multimedia Modeling** Klaus Schoeffmann, Bernard Mérialdo, Alexander G. Hauptmann, Chong-Wah Ngo, Yiannis Andreopoulos, Christian Breiteneder, 2012-01-03. This book constitutes the refereed proceedings of the 18th International Multimedia Modeling Conference MMM 2012 held in Klagenfurt, Austria, in January 2012. The 38 revised regular papers, 12 special session papers, 15 poster session papers and 6 demo session papers were carefully reviewed and selected from 142 submissions. The papers are organized in the following topical sections: annotation, annotation and interactive multimedia applications, event and activity mining and mobile multimedia applications, search, summarization and visualization, visualization and advanced multimedia systems and the special sessions: interactive and immersive entertainment and communication, multimedia preservation, how to ensure multimedia access over time, multi-modal and cross-modal search and video surveillance.

Handbook of Information Science Wolfgang G. Stock, Mechthild Stock, 2013-07-31. Dealing with information is one of the vital skills in the 21st century. It takes a fair degree of information savvy to create, represent and supply information as well as to search for and retrieve

relevant knowledge How does information documents pieces of knowledge have to be organized in order to be retrievable What role does metadata play What are search engines on the Web or in corporate intranets and how do they work How must one deal with natural language processing and tools of knowledge organization such as thesauri classification systems and ontologies How useful is social tagging How valuable are intellectually created abstracts and automatically prepared extracts Which empirical methods allow for user research and which for the evaluation of information systems This Handbook is a basic work of information science providing a comprehensive overview of the current state of information retrieval and knowledge representation It addresses readers from all professions and scientific disciplines but particularly scholars practitioners and students of Information Science Library Science Computer Science Information Management and Knowledge Management This Handbook is a suitable reference work for Public and Academic Libraries *Perspectives on Content-Based Multimedia Systems* Jian Kang Wu, Mohan S. Kankanhalli, Joo-Hwee Lim, Dezhong Hong, 2006-04-11

Multimedia data comprising of images audio and video is becoming increasingly common The decreasing costs of consumer electronic devices such as digital cameras and digital camcorders along with the ease of transportation facilitated by the Internet has led to a phenomenal rise in the amount of multimedia data generated and distributed Given that this trend of increased use of multimedia data is likely to accelerate there is an urgent need for providing a clear means of capturing storing indexing retrieving analyzing and summarizing such data Content based access to multimedia data is of primary importance since it is the natural way by which human beings interact with such information To facilitate the content based access of multimedia information the first step is to derive feature measures from these data so that a feature space representation of the data content can be formed This can subsequently allow for mapping the feature space to the symbol space semantics either automatically or through human intervention Thus signal to symbol mapping useful for any practical system can be successfully achieved *Perspectives on Content Based Multimedia Systems* provides a comprehensive set of techniques to tackle these important issues This book offers detailed solutions to a wide range of practical problems in building real systems by providing specifics of three systems built by the authors While providing a systems focus it also equips the reader with a keen understanding of the fundamental issues including a formalism for content based multimedia database systems multimedia feature extraction object based techniques signature based techniques and fuzzy retrieval techniques The performance evaluation issues of practical systems is also explained This book brings together essential elements of building a content based multimedia database system in a way that makes them accessible to practitioners in computer science and electrical engineering It can also serve as a textbook for graduate level courses *Intelligent Multimedia, Computing and Communications*, 2001 *IEEE Workshop on Content-Based Access of Image and Video Libraries (CBAIVL 2001)*, 2001 This workshop held in December 2001 on Kauai discussed various means for retrieving information from digital images and video The proceedings features 20 papers grouped into the four themes of image content

Stateofheart In Contentbased Image And Video Retrieval Introduction

Stateofheart In Contentbased Image And Video Retrieval Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Stateofheart In Contentbased Image And Video Retrieval Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Stateofheart In Contentbased Image And Video Retrieval : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Stateofheart In Contentbased Image And Video Retrieval : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Stateofheart In Contentbased Image And Video Retrieval Offers a diverse range of free eBooks across various genres. Stateofheart In Contentbased Image And Video Retrieval Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Stateofheart In Contentbased Image And Video Retrieval Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Stateofheart In Contentbased Image And Video Retrieval, especially related to Stateofheart In Contentbased Image And Video Retrieval, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Stateofheart In Contentbased Image And Video Retrieval, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Stateofheart In Contentbased Image And Video Retrieval books or magazines might include. Look for these in online stores or libraries. Remember that while Stateofheart In Contentbased Image And Video Retrieval, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Stateofheart In Contentbased Image And Video Retrieval eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Stateofheart In Contentbased Image

And Video Retrieval full book , it can give you a taste of the authors writing style.Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Stateofheart In Contentbased Image And Video Retrieval eBooks, including some popular titles.

FAQs About Stateofheart In Contentbased Image And Video Retrieval Books

What is a Stateofheart In Contentbased Image And Video Retrieval PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Stateofheart In Contentbased Image And Video Retrieval PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Stateofheart In Contentbased Image And Video Retrieval PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Stateofheart In Contentbased Image And Video Retrieval PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Stateofheart In Contentbased Image And Video Retrieval PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
